Italian Resistance Is Reported Stiffening After Derna Fall

ITALIANS CHANGE ALBANIAN TACTICS

Fascists Counter-Attacking In Effort To Take Offensive In Albania

By JAMES E. BROWN
International News Service Staff Correspondent

LONDON, Jan. 31.—Italian resistance in Libya, where British forces yesterday captured Derna, is stiffening, and in Albania the Fascists are making an unsuccessful effort to regain the initiative, a British military authority said today.

This source declared the Italian tactics in Albania "apparently have changed and that the Fascists now are counter-attacking in their efforts to take the initiative."

He stated these efforts have not proved successful, however, and that the Greeks still are gaining new territory.

PA NEW OBSERVES

Conveyed by city police, an army truck convoy of 50 huge supply trucks passed through the city at 3 o'clock Thursday afternoon. The drivers were composed for the most part of colored troops. The machines lost little time in getting through town, coming through in close formation.

New Castle will turn out Saturday evening to give the men of Battery F and the Service Battery a memorable reception as the members of these organizations depart for a year's training at Camp Shelby, Miss. The departure will be made at the West Side station of the Pennsylvania Railroad at 6 o'clock, following a march through the city.

At the Cathedral auditorium tonight, another class will be graduated by New Castle senior high school. Approximately 240 boys and girls will be handed their diplomas in the ceremonies of the evening. This is the largest January class as yet graduated.

Ford Would Make Defense Materials For U. S. At Cost

(International News Service) DEARBORN, Mich., Jan. 31.—Henry Ford said today that he is willing to manufacture anything the government wants at cost if other manufacturers of defense materials will do the same.

From his winter home at Ways, Ga., the motor magnate talked by telephone to Harry Bennett, personnel director at the Ford Motor company, and said:

"America should be prepared. We should not quibble over contracts and prices."

"We will make anything we can that the government wants as soon as possible after they announce to us that they want it."

Intensified U-Boat Campaign Expected

By PIERRE J. HUSS
International News Service Staff Correspondent

BERLIN, Jan. 31.—Chancellor Hitler's declaration in his sportspalast speech that escorted and unescorted ships will be torpedoed was in effect a proclamation of coming intensification of Germany's warfare at sea. Authoritative German quarters said today.

But they declared the intensified U-boat campaign would not be extended beyond the present war-zone around England.

They also declared that German

submarine operations will be confined to British ships and to convoys vessels en route to England, whatever the nationality of such vessels.

Warning To U. S.

Authoritative quarters conceded that this interpretation of the fuhrer's speech represent a frank warning against "fool-hardy entrance" of American ships into the blockade zone.

These circles pointed out that many previous warnings have been issued that disaster was "certain to hit" any ship entering the blockade zone.

British Column Is Pressing Forward In Wilds Of Abyssinia

WITH IMPERIAL BRITISH FORCES, Somewhere In Abyssinia, Jan. 31.—A British column today is gradually forcing its way against enemy lines somewhere in this Italian-held African domain of Emperor Haile Selassie.

I am riding in a truck which is leading a motorized convoy—the first motor expedition ever to penetrate this region.

The truck is fitted with bumpers whose purpose is to knock down trees in its path. The going is not easy but the convoy is getting through.

For instance, as I write this dispatch before sunrise, we are in the rocky bed of a dry river, surrounded by massive grotesque outcroppings of black rock. The entire region is full of strange birds and wild game of every conceivable species.

Senior High Gives Diplomas Tonight

Dr. Spencer, Pittsburgh Educator, Will Be Commencement Speaker

Diplomas will be presented to 242 seniors at Senior High school's 14th winter commencement in the Cathedral tonight at 7:30.

The class will hear Dr. C. Herbert Spencer, president of Pennsylvania College for Women at Pittsburgh, as the speaker. He will be introduced by Superintendent of Schools C. C. Green.

The exercises are expected to attract the usual capacity crowd of parents, relatives and well-wishers. Baccalaureate services for the seniors took place last Sunday.

C. Leroy Shira, new president of the board of education, will pass out the diplomas.

Dodge Widow And Surgeon Married

(International News Service) CHICAGO, Jan. 31.—Speeding west from Chicago by train today were William Lange, 32-year-old Detroit plastic surgeon, and his surprise bride of the day, the former Mrs. Anna Laurine McDonald Dodge, widow of Danny Dodge, heir to a huge automobile fortune.

The couple, married at Urbana, Ill., yesterday, were headed for a honeymoon at Sun Valley, Ida. They paused only a few moments in Chicago between trains, but in a brief interview said they had known each other for more than a year. Both expressed surprise that their marriage had attracted attention.

Ten-Day Extension For Driver Permits

(International News Service) HARRISBURG, Jan. 31.—Motorists were granted an additional 10 days in which to renew their operator's license by Secretary of Revenue William J. Hamilton, Jr., today.

The deadline for obtaining renewals was to have expired at midnight but it was decided to extend it because of the 11th-hour rush, Hamilton explained.

Members Of Local National Guard Units Will Be Given Rousing Farewell

VETS TO ESCORT MEN TO STATION

Everything is in readiness for the departure of New Castle's two batteries, Battery F, 190th Field Artillery, and Second Battalion Service Battery, for Camp Shelby, Mississippi, and many different groups will join in giving them a rousing sendoff when they board the train at the West Side station of the Pennsylvania R. R. at 6 o'clock Saturday evening.

The men will be transported to the railroad yards surrounding the old East Side station of the Pennsylvania, where they will be met by members of Perry S. Gaston Post, American Legion; and their championship Junior Band, together with members of the Civilian Sponsoring Committee, city and county officials, and other friends.

March Through City

Promptly at 5 o'clock, they will start on foot for the West Side station, forming a parade through the downtown section. On their arrival at the West Side, a brief program of addresses by prominent officials will be given; gifts will be presented from various groups, final farewells will be said, and the (Continued On Page Two)

Italians Admit Derna Evacuated

(International News Service) ROME, Jan. 31.—Italian evacuation of the Libyan port and base of Derna was announced by the Italian high command today.

The Italian war bulletin also stated that German planes bombed Suez and Egyptian city of Ismailia.

President's Ball In Cathedral Is Success

Between 800 and 900 dancers attended New Castle's seventh annual President's Birthday Ball in the Cathedral last night. Proceeds will go to further the local and national battles against infantile paralysis.

For four delightful hours, from 9 until 1, the merry crowd danced to melodious orchestral strains. Briefly it paused shortly after 11 to hear President Roosevelt's birthday greeting—he was 59 Thursday—from the White House and to cheer while dance leaders sold a 72-pound birthday cake which added \$25 to the infantile paralysis fund.

It gladly took time out, too, for the entertaining floor show presented by New Castle's popular Amil Lelenko and his star performers.

Just One "Well Time"

The whole evening long, everyone agreed, was one "well time." There wasn't a hitch in the plans of committees.

The birthday cake, a mighty delicious looking object to the crowd, was bought by Jack Gerson and ordered sent to the youngsters of the Margaret L. Henry Children's home, Friendship street, for "what-ever action they care to take."

'Lend-Lease' Bill Opposition Said To Be Increasing

Democratic Bloc Is Reported As Being Formed In House On Issue

Secretary Knox To Urge Passage Of Measure Before Senate Committee

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Jan. 31.—A Democratic bloc was formed in the house today to battle the "lend-lease" bill as Republican opposition stiffened despite optimistic administration predictions of sure passage of the "all out" British aid measure.

Secretary of the Navy Knox, meantime, will go before the senate foreign relations committee today to urge passage of the measure as a means of helping prevent Nazi domination of the seas.

Number Small

Leaders of the newly formed Democratic bloc in the house conceded that their number is small at this time, but claimed that sentiment was growing to defeat the bill and enact a substitute under which Great Britain might be furnished \$2,000,000,000 credit.

Many Democratic members of the house have talked the situation over and we are preparing to fight to defeat the bill on the ground that it will put us in war and put the cost on the backs of the American taxpayers," said Rep. Coffey (D) Neb.

"We believe that defeat of the bill is the only way to overcome the vast delegation of power contained in the bill. Then, if an outright appropriation is desired to aid England there is ample time to consider it."

Growing Sentiment

"There are a number of Democrats in our group, some are undecided, and we believe that there is a growing sentiment against the bill. We expect several Ohio Democrats to join in opposition."

House minority leader Martin called a conference of Republicans, after blasting the measure as a surrender of powers of congress.

Isolated Bands Of Iron Guards Still Resisting

(International News Service) BUDAPEST, Jan. 31.—Isolated bands of Iron Guard insurgents in Rumania are still resisting government troops, according to reports received in Budapest today.

One such outbreak occurred when a party of soldiers raided a county prefect's house at Braila, looking for goods stolen by the rebels when the uprising was at its height.

Five hundred armed Iron Guardists suddenly attacked the soldiers and a pitched battle resulted.

The soldiers fired with machine guns and, according to an official communiqué, killed 11 rebels. But reports filtering across the border indicated the number of casualties was much higher than officially admitted.

Nuisance Raids

Carrying out "nuisance raids" similar to those of Wednesday and Thursday, the raiders caused three air raid alarms in London. During the third the capital's anti-aircraft defenses sent up several terrific barrages.

Most of the planes approaching London came up the Thames Estuary under cover of low-hanging clouds, behind which they remained invisible although the roar of their engines could be heard plainly.

They dropped their loads through the clouds, apparently without aiming at specific targets.

Several "basket-loads" of incendiaries fell on purely non-military areas but the fires were extinguished rapidly by fire watchers who outnumbered the bombs six to one.

Shoot At Balloons

Virtually all of the raiders flew alone. Some of them machine-gunned the balloon barrage surrounding London, apparently trying to shoot them down although most of them were obscured by clouds.

In one area two high explosive bombs and some incendiaries demolished residential property and caused some casualties. London's third alarm sounded at 12:30 p. m. It was the 461st in the capital since war began.

'Nuisance Raids' Made On Britain

Some Nazi Planes Fly Over England And Drop Their Bombs

HIDDEN FROM VIEW BY MIST CLOUDS

(BULLETIN) (International News Service) LONDON, Jan. 31.—Sweeping up the Thames in large formations, then deploying to deliver far-flung "lone wolf" attacks, Nazi bombers today carried out one of the most intensive and widespread daylight air assaults on England in months.

LONDON, Jan. 31.—Flying low but concealed by clouds and mist, single German raiders kept punching at London and the surrounding areas today, dropping high explosive and incendiary bombs on various localities.

One German raider was shot down while attempting to bomb a village in southwestern England.

Other German planes raided East Anglia and the eastern midlands, dropping bombs that caused considerable property damage, particularly in East Anglia.

Prison Sentence For Bund Leader

(BULLETIN) (International News Service) NEWTON, N. J., Jan. 31.—G. Wilhelm Kunze, fuhrer of the German-American Bund, and eight of his cohorts were sentenced today to heavy fines and prison terms on a charge of violating the state law against speeches inciting religious and racial hatreds.

All received terms of not less than one year or more than 14 months in state prison at hard labor and were fined \$1,000 each. Two defendants, August Klapprott and Matthias Kohler, were fined an additional \$1,000.

The bundsmen immediately asked Judge John C. Losey, who pronounced sentence, for a certificate of reasonable doubt which would stay execution of the prison terms and fines pending appeal.

INVASION DANGER STRONG SAYS KNOX

Secretary Again Urges Immediate "All-Out" Aid For Great Britain

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Jan. 31.—Secretary of Navy Knox today vigorously attacked the stand of Col. Charles A. Lindbergh on the lease lend bill, declaring before the senate foreign relations committee that Lindbergh is not competent to speak on military strategy.

Knox derided Lindbergh's idea of a negotiated peace as "wild fancy," and amplified the support he gave for the "all out" British aid measure when he previously testified before the house foreign affairs committee. The secretary declared that a negotiated peace can only come from a military stalemate.

"I respect Col. Lindbergh's knowledge and ability in commercial aviation," Knox said. "However, his experience in military aviation is slight, and I consider that his statements on the employment of military strategy as indicating slight knowledge of the subject."

Danger Of Invasion

Knox categorically stated that the western hemisphere "now" is in danger of invasion. He said:

Athens Reports Italian Forces Attempt Four Separate Attacks

ALL OF ASSAULTS ARE REPULSED

(International News Service)
ATHENS, Jan. 31.—Repeated Italian attacks on the Albanian front were thrown back by Greek forces, the high command announced today following reports that Hellenic troops on the coastal sector are now within striking distance of the Italian-held port of Valona.

A war communique said that the Italians yesterday attempted four separate attacks on one part of the front, but that all of these assaults were repulsed.

On another sector, the high command said, Italian soldiers attempted to infiltrate behind the Greek lines but were thrown back by a Greek artillery barrage.

No less than 215 Italians, including a major, a captain and other officers, were captured on Tuesday and Wednesday, the communique added.

Presley N. Jones, assemblyman and general chairman of the ball, saw to it that everything proceeded on schedule and that the dancers enjoyed themselves.

Entertainers Prove Hit
Lelenko's assisting entertainers, who won rounds of applause from the audience, included Lucy Ann Rupert, soloist; Rosemary Place, acrobatic dancer, and John Carlin, the pianist who appeared recently on Major Bowes' program. Then there were the boxers, too—Richard Davis, Jeffrey Johnson, Norris Jones and Jack Thomas.

The general committee included General Chairman Jones, City Chairman John S. Huffer, Secretary Miss Frances Glasser and Treasurer John D. Kennedy. Special sub-committees aided the general committee.

war communique said four separate attacks by the Italians were repulsed on one section of the Albanian front, and that a Greek artillery barrage prevented another Italian attempt to infiltrate behind the Hellenic lines.

Report Not Confirmed

According to the London military authorities, there has been no official confirmation of reports that the British have advanced the important Albanian base of Tepeleni on the central front.

But the spokesman said that it was "probable" that Tepeleni had been evacuated, owing to the terrific pounding the Greeks have given it.

In Libya, despite the increasing Italian resistance, it was stated the British commander, Gen. Sir Archibald Wavell, now apparently is pushing his advance along the coast towards Apollonia after occupying Derna.

The spokesman said no details have yet been received as to the number of prisoners captured by the British at Derna.

In the northern section of the Anglo-Egyptian Sudan, he added, British troops are continuing to bring pressure against the Ethiopian stronghold of Asordat.

On the Kenya front British troops have pushed close to the Moyale area, where the Italians now are making a stand.

Haile Selassie—armed with spears and axes hacked down trees and made a path leading up precipitous banks from the sandy river bed. This vast wilderness of bush, now waterless, is so fever-ridden during the summer rains that no human being ever set foot here before. It is the "bad lands" of Ethiopia.

This year our war has been with trees and river beds. This morning we had an alarm. Two shots were fired by a sentry, arousing the camp and bringing everyone out, armed to the teeth.

But it turned out to be a false alarm. The sentry had been faced merely with five hungry lions which approached the camp. He fired his rifle to scare them off.

At the end of each day's journey, before turning in on mosquito-netted cots, we dig pits for the anti-aircraft guns that defend the camp. Officers and non-commissioned officers are armed with captured German sub-machine guns. The Ethiopian guards have rifles and some machine guns captured from the Italians.

It is a strange expeditionary force. But it is making progress despite mosquitoes, lions and Italians—to say nothing of the Ethiopian "roads". Of all the obstacles, the roads are the worst.

"It is not that we feel no concern for the plight of free peoples elsewhere in the world; that we do not hope that they may continue the freedom of their governments and their ways of life in the days to come."

It is because we believe in and insist on the right of the helpless and the weak and crippled everywhere to play their part in life—and survive."

"Cuff Links" Club
Also among the White House guests listening to Mr. Roosevelt were members of the "Cuff Links" club, a group formed of associates who were with him when he made his unsuccessful bid for the vice-presidency in 1920. Their cuff links carry their initials and those of the "club."

The luminaries making the rounds of the parties included Lana Turner, Deanna Durbin, Wallace Beery, George Raft, Wayne Morris, Maureen O'Hara, Al Ritz, Charlotte Greenwood, Kay Aldridge, Preston Foster, Football Star Tommy Harmon and a score of other nationally known entertainers.

Also in the spotlight was 14-year-old Anna Sklepovich, Gary W. Va. whose birthday falls on the same day as the president's. Anna came to Washington as a result of a hoax, but became a real Cinderella and accompanied Mrs. Roosevelt and the stars to the parties and the White House gathering.

Some 35,000 paid \$2.50 apiece to attend the balls, which set a new record. To top off the celebration, Mrs. Roosevelt, the celebrities and Cinderella Anna sat down next to each other at a \$25 per person gold plate breakfast, eating scrambled eggs at \$10 each and drinking coffee at \$5 a cup, the proceeds being added to the paralysis fund.

Deaths of the Day

Doc Mahone

Doc Mahone, aged 59, of rear 1111 1/2 Scioto street, passed away Thursday evening at 8:30 o'clock in the New Castle hospital. Death was caused by complications.

Surviving are his wife, Mrs. Loretta Mahone, four sons and three daughters; two brothers and two sisters in Alabama, and one brother in Kentucky.

The body has been removed to the Ritchie funeral home, South Mill street.

Funeral arrangements are incomplete.

Charles White Merriman

While at work as a general foreman on the W. P. A. project in Wayne township, Charles White Merriman, aged 63, of Chewton, collapsed Thursday at noon. He was taken to the Ellwood City hospital where he was pronounced dead, death probably resulting from a heart attack.

Lawrence county coroner, Dr. T. F. Nugent, went to Ellwood City where he viewed the body.

Mr. Merriman was a lifelong and highly respected resident of the Beaver Valley. He leaves his wife, Marie, one son, George L. Merriman of Beaver Falls; two step-sons, Leo and Walter Rosin of Wampum; two sisters, Mrs. Lillian Gallagher of Greensburg, Miss Elsie Merriman of Greensburg; one brother, Wilson Merriman of Beaver Falls, and six grandchildren.

The body was taken to the residence in Chewton this morning from the Marshall funeral home, Wampum. Funeral services will be conducted Sunday afternoon at 2 o'clock from the Chewton Christian church, with Rev. Charles Durbin, the pastor, officiating. Interment will be in Clinton cemetery.

Mrs. J. K. Myers

Mrs. Jessie M. Myers, wife of J. K. Myers, 408 East North street, passed away this morning at 1:30 o'clock, death being caused by complications. She had been taken to the hospital on Thursday morning.

At the present time, Mr. Myers is a patient in the New Castle hospital, having been there since last Saturday.

The body of Mrs. Myers has been removed to the Sharp funeral home in New Wilmington. Funeral arrangements are incomplete, pending arrival of relatives from Cleveland, O., and will be published with the complete obituary on Saturday's News.

Mrs. Lillian B. Wilkinson

Mrs. Lillian B. Wilkinson, of 206 South Crawford avenue, passed away at her home this morning at 6:45 o'clock after an extended illness.

Mrs. Wilkinson was born in New Castle, daughter of Martin and Mary MacIlveney Leicht. She graduated from New Castle high school and was formerly a teacher in the local public schools. Mrs. Wilkinson was a member of the Second U. P. church, the Gleasons' class and Current Events '06 club. Her husband, Samuel R. Wilkinson, preceded her in death in 1935.

Surviving are three children, Martin S. of Youngstown, Mrs. Aileen Stone, at home, Chester L. of Toledo, O., one sister, Mrs. Katherine L. Purdue of New Castle, and one brother, William Leicht of Mahoningtown.

Friends may call at the residence until Sunday at noon when the body will be taken to the Second U. P. church, County Line street. The body will be in state at the church from 1 until 2:30 o'clock when the casket will be closed and funeral services will be conducted by the church pastor, Rev. J. Calvin Rose. Interment will be in Gracefield cemetery.

Mrs. Margaret Goodwin

Following a long illness, Mrs. Margaret Goodwin, aged 74, widow of Patrick J. Goodwin, 26 1/2 Washington street, passed away in the New Castle hospital Thursday afternoon at 4:30 o'clock.

Born in Toronto, Ontario, Canada, on February 9, 1866, daughter of Maurice and Margaret Fleming Unalike, she had been in New Castle for the past 25 years. She was a member of St. Joseph's church.

Survivors are two daughters, Mrs. J. J. Daugherty of Ellwood City, Mrs. Earl Croud of Beaver Falls; one son, Leo Goodwin, at home, and six grandchildren. Mrs. Goodwin was the last of her family. Her husband, Patrick Goodwin, preceded her in death 30 years ago.

The body has been removed to the Campbell funeral home, East North street, where the family will receive friends this evening from 7 to 9 o'clock.

Funeral mass will be celebrated Saturday morning at 9:30 o'clock from St. Joseph's church with Rev. Fr. Peter M. Schirra as celebrant. Interment will be in St. Joseph's cemetery.

Mackey Services

With a large number of relatives and friends in attendance, funeral services for Edwin Mackey of Detroit were conducted Thursday afternoon at 2 o'clock from the home of his sister, Mrs. Michael Yargats, 802 Wilmington avenue.

Rev. Einar W. Lehto, pastor of the Finnish Lutheran church, officiated. During the services, Tobe Mackey sang an appropriate selection.

Palbearers were Rudolph Hutton, William Leivo, Harry Haltman, Alfred Savolaine, John Holsen and Edward Kleinhambel.

Interment was in Gracefield cemetery.

Wetlich Funeral

Funeral services for John Wetlich, 318 Shaw street, were held Thursday afternoon at 3 o'clock from the Joseph B. Leyde mortuary, Highland at Winter, with Dr. S. A. Kirkbride of New Wilmington in charge, assisted by Rev. R. M. Patterson, pastor of Central Presbyterian church.

Palbearers, brothers of the deceased, were Charles, George, Lee, Lewis, Harry and Ralph Wetlich.

Interment was in Castle View Burial Park.

methods, this hemisphere now is in grave danger of invasion. It would be a calamity for us if Britain is uprooted and replaced by Hitler."

Lindbergh told a house committee that the United States can prevent invasion by building an air force of 10,000 fighting planes, with 10,000 in reserve. The "Lone Eagle" derided fears that Germany or other nations could effectively attack the United States without nearby bases.

"Col. Lindbergh's idea that it might be possible to effect a stable negotiated peace in Europe is wild fancy," Knox told the committee.

"A negotiated peace can only come about through a military stalemate. And in Europe conditions are far from a stalemate. I believe few Britishers are willing to accept German commitments at their face value."

Need Time To Get Ready
Secretary Knox told the senate foreign relations committee that "we need time to get ready to meet out at sea a strong aggressive Germany if we are to keep the fighting away from the lands of this hemisphere."

In a formal statement, that in some quarters was seen as this government's answer to Chancellor Hitler's threat of U-boat warfare, Knox said:

"The chief question that confronts us is whether we shall now take steps to keep Europe's wars in Europe or shall drift along and permit those wars to be transferred to the Americas."

"We need time to get ready to meet out at sea a strong aggressive Germany if we are to keep the fighting away from the lands of this hemisphere."

In public speeches I have warned the American people that if Britain is defeated we ought then to be fully prepared to repel attempts by Germany to seize bases on this side of the Atlantic. Germany would use these bases either to attack us directly or else first to establish herself solidly in South America."

"I believe that a victorious Germany would move over to this hemisphere just as soon as she could accumulate the strength to do so, and certainly very soon unless we now take steps to check her career of reckless aggression."

PLAN PROGRAM FOR BATTERIES ON SATURDAY

(Continued From Page One)

pride of Lawrence county will board their train for the long journey south, where they will remain for a year of intensive training.

According to Major W. F. Jackson, of the local armory board, the armory here will not be closed up during the absence of the troop, and plans are being formulated by the Perry S. Gaston Post, of the American Legion, for its use while the battalions are away at camp.

The post plans to have its next meeting in the Armory where the members can see what kind of a huge plant the state operates for the men of the National Guard.

Business Manager George Moore, of the American Legion junior band has requested members of the band to be at the Legion Home promptly at 4 o'clock Saturday afternoon, to make preparations for their part in the program of departure.

The parade will be headed by the American Legion Band, under the direction of Joseph F. Replogle, followed by the officers of both battalions, and the Civilian Sponsors Committee, in automobiles.

The line of parade will be along East Washington street, across East Washington street bridge, through the city to the Public Square, and continuing to the railroad station, for entrainment for Camp Shelby, Mississippi.

A depot, the soldiers and officers, will be greeted by the Mayor and officials of the city, the Civilians Sponsoring Committee, and members of Perry Gaston Post, American Legion, and Veterans of Foreign Wars.

Four tourist cars, two baggage, one kitchen car, will comprise the train, with a flat car attached, carrying the 155 millimeter (six inch) field gun, which belongs to these units.

COVERED GRATE CAUSES BLAZE

Firemen were called to the home of Stephen Kantes of 214 Elm street, at 6:14 o'clock Thursday evening, where soot, which had gathered behind a covered grate, caught fire and burned off the covering. There was practically no damage resulting from the fire.

'LEASE-LEND' BILL OPPOSITION SAID TO BE INCREASING

(Continued From Page One)

mitted a formal report recommending passage of the bill, which is scheduled to be thrust before the house for debate on Monday.

The report declared that in view of world conditions "prompt enactment of H. R. 1776 into law is of the highest importance to the vital interests of our country—and even of our civilization."

Policy Submitted

Hearings and public discussion, the committee said, had led it to believe the U. S. national policy is met "squarely" by the bill. It said this policy is:

(A) To keep out of war; (B) And, for our own national security, to aid Britain and other nations whose defense is vital to the defense of the United States by supplying them as quickly and as efficiently as possible with defense articles in a manner consistent with our Democratic principles.

Martin charged the administration with "muddying the waters" by presenting a bill granting the president vast power instead of merely providing aid for England.

"I support a bill to give England credit for \$2,000,000,000 to purchase war materials," said Martin. "I am sincerely sympathetic with the desire to aid England but I don't think it is necessary to surrender powers of congress to the president to do so."

Were the old-timers tough because they were raised hard, or did it just seem that way because the tough lived through it?

ATLANTIC IN 1941

REVELATION of the course of war during the present year has been offered with unusual clarity in dispatches from three sources.

The first was a declaration by British Shipping Minister Ronald Cross, who said that crucial in the battle of Britain was a Battle of the Seas in 1941. Cross puts prerequisite in the struggle the provision of supply-carriers and he looks to America for merchantmen to reinforce British ships in the sea lanes.

The second was a report from the Department of Labor at Washington, announcing that emphasis on ship provision here is so great that the number of workers in ship-building is increasing phenomenally. It is estimated that 506,000 new jobs at ship-building will be created by June, 1942.

The third was the expression of Viscount Halifax, after his first day in Washington. He said that the greatest aid the United States could extend to his embattled homeland was "speedy mobilization of your great industrial strength and its translation into action in supplying us with the ships and supplies we need."

Taken together, the three declarations disclose that during the current year the line of communication across the Atlantic promises to become truly paramount in the conflict.

ROUND TRIP NON-STOP BOMBERS

Prediction is made by Brigadier General John C. McDonnell, commander of Mitchell Field, that long-range bombers, capable of a round-trip, non-stop bombing raid across the North Atlantic, will soon form the basis of air power and air defense.

But this did not prevent General McDonnell from pointing out that the United States must settle on presently available types of planes and get them into production as soon as possible—not waiting until some "perfect" plane is devised.

By all means that program should be followed. But General McDonnell's testimony, added to that of other air experts regarding the imminent prospect of development of far-ranging bombers calls for adequate defense plans against them and early production of an adequate force of such bombers for our own services.

ON BEING CERTAIN

Various impressions can be derived from the hearings before the House of Representatives Foreign Affairs Committee on the "lease-lend" bill, now concluded, but one outstanding impression is the dogmatism, the cocksureness, of witnesses. If this war has taught one lesson above all others, it is that one can be sure of nothing. Those who have put their faith in certainties have been confounded.

Even with August, 1914, to warn him otherwise, Hitler was certain that he could invade Poland, as an earlier Belgium had been invaded, without bringing a declaration of war from Great Britain. The French were certain that nothing could pierce the Maginot Line. Mussolini was certain that he could attack a prostrate France and share in the spoils without fighting.

Goering was certain that the German air force could bomb Britain into submission. Examining the entire field of uncertain certainties, there seem to have been but two certainties that have panned out—Prime Minister Churchill was certain that he could get American aid and President Roosevelt was certain that he'd get re-elected.

Opinions offered to Representative Bloom's committee oscillated between extremes, between Colonel Lindbergh's opinion that it makes no difference to the United States which side wins, makes no difference whether the British fleet floats or sinks, to the opinions of those who think that the United States should become part of the British empire right now or civilization is lost.

These opinions are those of sincere people, entitled to be heard with tolerance and even with respect.

Administration spokesmen were themselves dogmatic, cocksure, full of certainties. Their thesis is that it is to the interest of the United States not to see Great Britain defeated. If that is true, then aid to Britain follows. That is no longer debatable.

GREECE LOSES HER STRONG MAN

The doctrine that no man is indispensable will be subjected to a severe test by the unexpected death of Metaxas, premier and absolute dictator of Greece. Yet there is much consolation for his people in the fact that his career was not cut short before the latest and greatest crisis in their modern history was precipitated.

They may well shudder to think what might have been their fate if this strong man, soldier as well as statesman, had not been alive to plan and command their thus far successful fight against the Italian invasion. His plan of campaign, based on the axiom that the best defense is vigorous offense, had been devised long before the Italians attacked. He chose the mountains as the locale most advantageous to the Greeks for their fighting and his wisdom was borne out by the event.

There was a suggestion of the Churchill character and manner in his militant leadership and resolve to resist to the utmost, which stiffened the natural courage of his people, civilians and soldiers alike.

However much his sympathies may once have leaned toward the Germans—and his shifting loyalties undoubtedly clouded his earlier turbulent career—Metaxas had fully redeemed past errors and established himself as one devoted wholeheartedly to the welfare of his country.

In time of peace his efforts were directed toward far-reaching measures of social reform for the benefit of the poor and unprivileged. In what may now be regarded as his valedictory, he declared his aim to be the development of Greece and her moral and material resources, but "not at the expense of other peoples." Here was the mark of distinct difference between the aims of Metaxas and those of the prime aggressors, Hitler and Mussolini.

Greatly as the loss of "Little John" will be felt, his notable service to Greece in her hour of trial, still undecided, will live long after him, while this fresh emergency should strengthen the determination of the Greeks to carry on against their powerful opponents—Philadelphia Inquirer.

The Parent Problem

By Garry C. Myers, Ph.D.

OWN AGE PLAYMATES FOR CHILD

I am amazed at the number of parents who suppose that two or more children of the same family need no other playmates but their brothers and sisters. Some even suppose that a child of six or eight should be satisfied to spend most of his time with a brother or sister of two or three. Worse, still, a few parents suppose that they themselves can suffice as the playmate of a young child. All these parents overlook some very essential items in the nature and needs of the growing child.

A mother who has lived with her husband and two children, six and two in a two-family house writes: "Now we have a large house, large yard and live alone. I thought it would be grand for the children and we'd live happily ever after. But my six-year-old either wants to have someone come to play with her every day or she wants to go somewhere to play. If I say 'No,' she is unhappy and doesn't know what to do with herself."

I know they need playmates, but it certainly is annoying when the first thing I hear in the morning is, "Who can I have come play today?" or, "Can I go over to so and so's house today?" I have always believed it important for children to learn to amuse themselves and not expect to be entertained all the time.

"Now what do you think about it? Shouldn't I try to find a way for her and her two-year-old sister to play together so they can mean something to each other, or is there too much difference in age?"

Children Need Playmates. How I answered her—I agree with you that a child should be able to amuse himself alone part of the time. But I am sure you are wrong in supposing that your child of six should be satisfied with her two-year-old sister as a sole playmate. They cannot be ideal playmates most of the time. They live in two vastly different worlds. Each needs to spend considerable time with other children of the same age.

This is especially true of the older girl. Please do not feel vexed when your six-year-old daughter wants to play with a neighbor child her own age or when that child comes and plays with her. Expect her to spend a part of her time each day in this manner. Make clear to her the few regular chores she must always do and the definite periods she must be home with no other playmates but her baby sister.

Encourage this older child to read to the baby. This will make her feel she is doing something of importance and will cultivate an affectionate relation between them. Besides, it will be the best way to help the older to become a good reader. I enclose a list of books for this purpose.

As this older daughter reaches the age of 10 or 12 she will be more eager to have playmates her own age and less satisfied to play with her baby sister. See that the baby sister is not a tag-along. Help her also to cultivate her own playmates for her best happiness and social education.

Solving Parent Problems. Q. Do you think a child should memorize gems of literature? A. Yes; but I would not like to see him burdened with it. Most children in the early grades at school like to memorize short selections if they are given a wide assortment from which to choose. And children at Sunday school like to memorize short selections from the Bible.

The World and the Mud Puddles

ONCE WAS ENOUGH.

The Bobbs-Merrill Company have published a book known as the "Hungarian Rhapsody," by Bertita Harding and Bertita Harding's story, of course, is about Liszt, who as every music lover knows was not only a great composer but a great performer on the piano. His "Hungarian Rhapsody" is perhaps his greatest composition. As I remember the story, Liszt declared that no one, not even himself, could adequately play this composition on the piano, but Paderewski showed the world that it could be done.

Bertita Harding tells a very good story in her book, illustrating what a publicity man was Liszt and how much he knew the originality in advertising.

Once, while billed for two concerts in a French town, Liszt found himself on the evening playing before scarcely fifty listeners, of whom but one was a woman. Always a lion with the gentler sex, he was deeply hurt. He stopped in the middle of his concert and marched to the footlights.

"Gentlemen—and Madame," he said, "this is enough of music. Will you do me the honor of dining with me?"

The invitation was accepted with loud huzzas, and the assembled audience—with the lone lady seated on the host's right—enjoyed a banquet at Liszt's expense.

The town gazette published the story and on the next evening the concert hall was sold out, so that the wily Frenzy felt him more than reimbursed for his outlay of the previous evening.

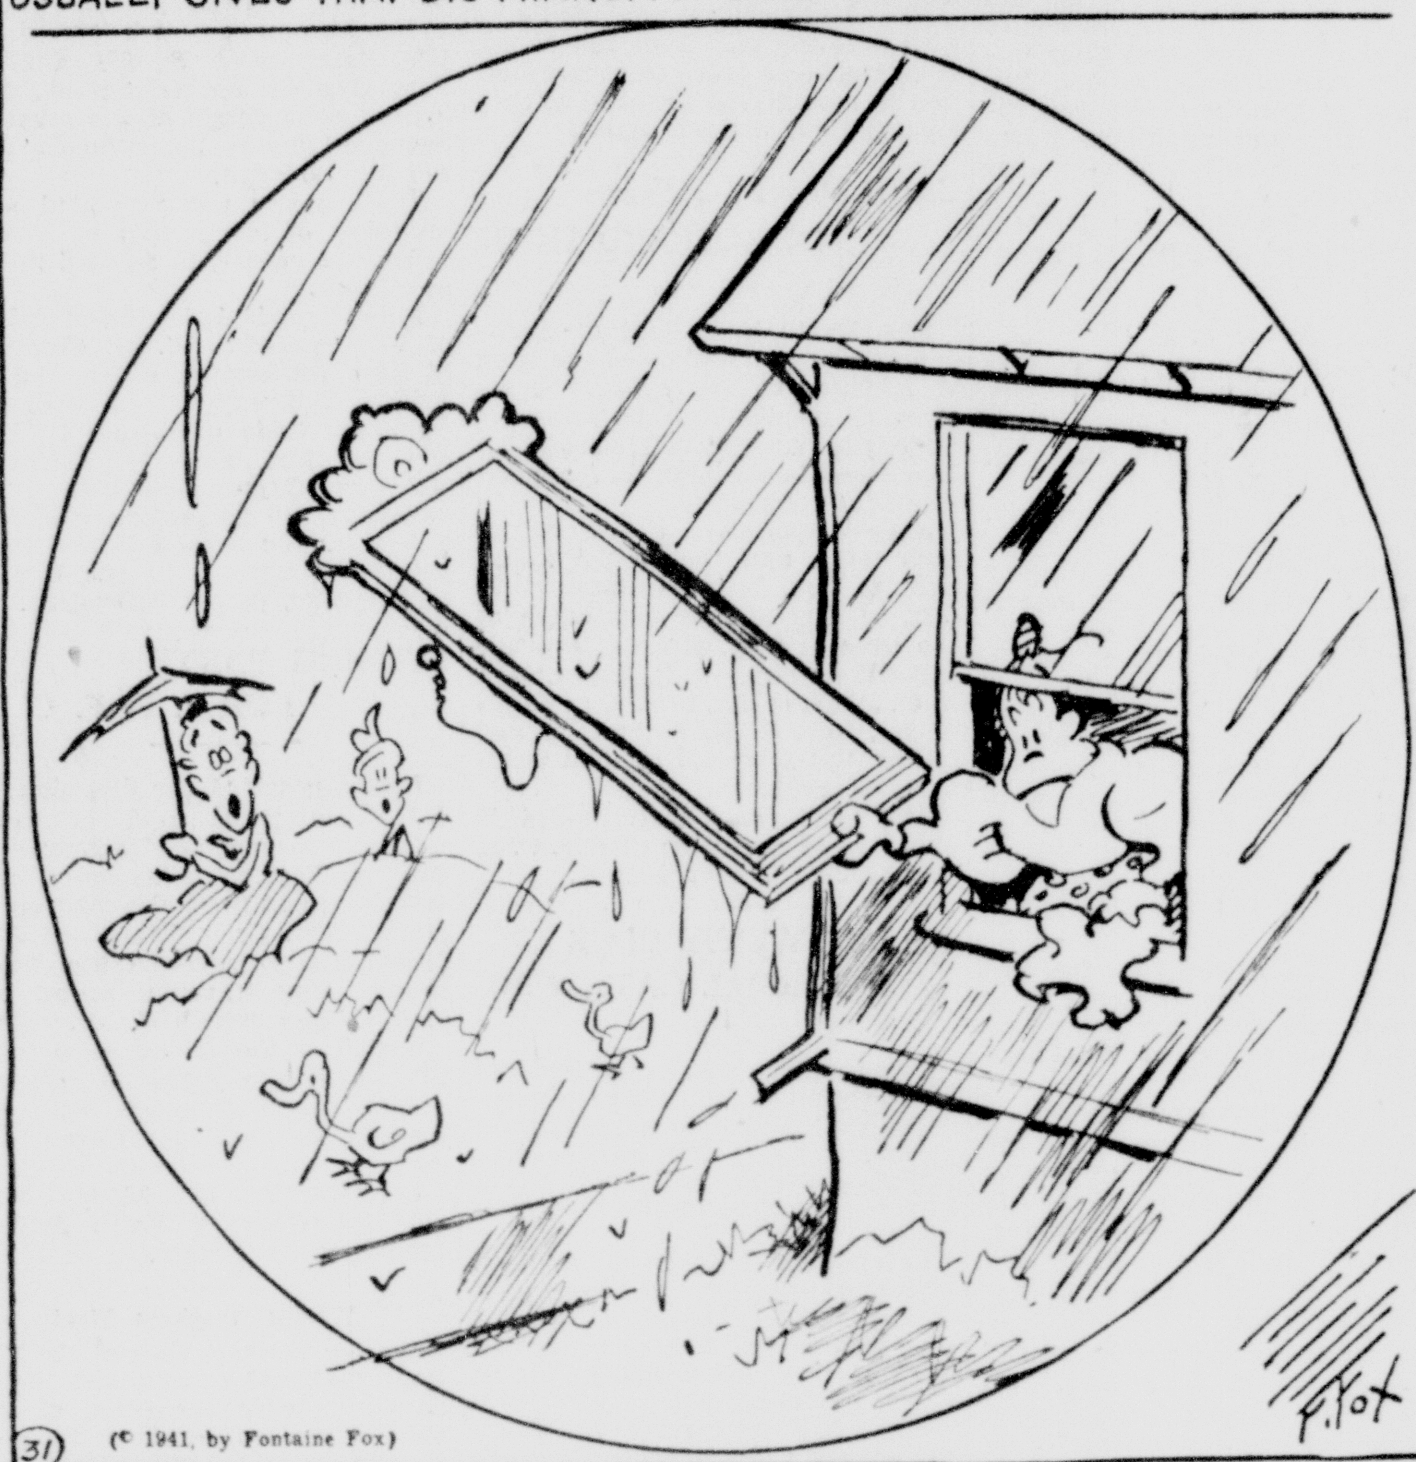

The second audience, however, went supperless to bed, discovering to its chagrin that free meals did not always come with piano recitals.

HINTS AND DINTS

Sun sets tonight 5:16. Sun rises tomorrow 7:10.

There are many people in New Castle who want to see the extension of the dream highway come through to the Ohio line. It sure would be great for us.

"Why did you rush out of that meeting hall so quickly?" a man was asked as he left the meeting. "You should have heard the speaker," he said. "He said that in closing he would repeat the words of the immortal Webster, and I didn't have time to hear him read the dictionary."

The farmers like the deep snow. It is good for their wheat fields and meadows. With the help of nature and a lot of hard work the farmers get along in some ways sometimes.

FROM A NEWSPAPER OF 1830. A husband who wanted to disclaim any debts contracted by his estranged wife, had the following printed in a newspaper in 1830:

"... She has, without cause, left my habitation and is floating on the ocean of tyrannical extravagance, prone to prodigality, taking a wild goose chase and kindling her pipe with the coal of curiosity. To abscond and abolish such insidious, clandestine, noxious, pernicious, diabolical and notorious deportment, I therefore caution all persons from harboring or trusting her on my account, as I will pay no debts of her contracting from this date, unless compelled by law."

Notwithstanding they go well together, liberty is more precious than money.

Men can never tell their wives what women they met were wearing, but they can tell them all about the lipstick they had on.

Free speech doesn't mean that a few men should do all the talking.

It's a wonder there are not more women barbers. They know more about making men look nice than men barbers do.

Job—"Would you marry a woman who is a great talker, or the other kind, Ezry?"

Ezry—"What other kind is they?"

Luke McLuke consulted a portrait expert the other day. "Can I make a good picture of your wife," echoed the man of pictures. "Luke, I can make one so lifelike that you'll jump every time you look at it."

Angry Guide—Why didn't you shoot that tiger?

Timid Hunter—He didn't have the right kind of expression on his face for a rug.

There's another way to tell whether your guest is married. A bachelor doesn't hesitate to use a guest towel.

When a local tightwad had his finger prints taken there was the imprint of a buffalo on his thumb and the imprint of an Indian on the first finger of his hand.

Some people keep a record of everything they do. Two crooks in Ohio kept newspaper clippings of the accounts of all the gasoline stations they robbed. They will not need any gas for some time to come.

Chisler—You oughtn't to charge me but half-price for cutting my hair when I'm half bald.

Barber—Sorry, sir. We don't charge for cutting your hair—we charge for the time we spend hunting for it.

Talk about ingenious husbands! 'Twas his 10th wedding anniversary—the tin one—and his wife wouldn't let a tin pan light in her kitchen. What she received was 10 lovely red

PLENTY FLAT

"Twas many many years ago Columbus got that notion About this world not bein' flat. And dashed across the ocean."

His friends declared the world was flat. While he said it was not; And, though they argued pro and con, No knows just where they got?

Quite recently we talked with some Who think the friends were right, And they drag out good arguments To prove this awful plight.

Now, what I think of this old world Is not a major matter; But if it's all like what I see— It couldn't be much flatter!

The former Kaiser of Germany Has just celebrated his 82nd birthday. Wonder if Hitler will ever do that?

We did not think so much of the old-fashioned winter years ago when we had to walk two or three miles night and morning to get to work through deep snow.

Aunt Hetty—"Sakes alive, I don't believe no woman could ever be so fat."

Uncle Sy—"What y' reading now Hetty?"

Hetty—"Why, this paper tells about an Englishwoman that lost two thousand pounds."

One thing you can depend upon and that is the information Mr. Wilkie gets in Europe can be depended upon. He is just looking and not making speeches and telling people what they have to do.

"I'll never forget the night you proposed. You acted like a fish out of water."

"Yes, I was a sucker."

It's always a wise thing to be polite to a policeman. He has the club.

Already there is talk in Wahington for a fourth term.

There are people who even get very tired by playing too hard.

A woman went into a grocery store and was badly smeared with paint. She noticed a sign reading "Fresh paint" hung on the counter. She told the proprietor she had seen so many things around the store marked "fresh" that she didn't believe the paint sign.

AN OLD ONE. The family was seated at the table with a guest who was a business acquaintance of the father. All were ready to enjoy the meal, when the 5-year-old blurted out: "Is this roast beef?"

"Yes," said the mother. "What of it?"

"Well, daddy said this morning that he was going to bring home a big fish for dinner tonight."

It isn't the desire for variety that makes him smoke cigarettes, cigars and a pipe. Anything tastes bad when you overdo it.

"Ah, if I'd only known how stupid you were, I'd never have married you!"

"My dear, you should have realized how stupid I was when I asked you to marry me."

Probably the reason for some people taking four or five baths a week is because they need them.

More grievances than hallelujahs get into print.

It's all right to look before you leap, but don't look long enough to show others which way you are going to jump.

Correct this sentence: "These dresses for English babies are not meant for display," said the matron. "So we're adding no fancy touches."

What's What At A Glance

Female Investors Express Their Opinions
Say Minority Should Be Constructive
Women Say Home Interests Are Neglected

By CHARLES P. STEWART

(Central Press Columnist)

WASHINGTON, Jan. 31.—Members of Incorporated Women Investors in America ("In," not "of," if that implies any sort of a distinction) are worried as to the future of our national minority political party—of course, at present, meaning the Republicans.

Their Washington research institute, headed by Miss Catherine Curtis, as national director, recently issued a press release on the subject. It's interesting, too, and ought to be particularly so to our congressional isolationists, Democrats as well as Republicans, for the Women Investors' opinion is that we're concentrating upon "problems of Europe" and correspondingly neglecting "our home problems" to an extent that "endangers our representative form of government, in which," says the release, "the women of this country have the greatest stake."

To the release's accompaniment the women broadcast a "Suggested Program for the Minority Party," a program which they previously had taken pains to copyright. This was a queer way to encourage newspapers to publish it, at the risk of being sued for infringements. However, the release itself wasn't copyrighted, and the release embodied the nub of the program.

The women's thesis is that free government can continue only through retention of a "truly competitive two-party system." They submit that, if one of the two existing groups evaporates, we automatically will become totalitarian, at the sacrifice of "free enterprise, personal liberties and security of the home."

The argument is that the majority party naturally can't be expected to do anything toward keeping the minority party going; that's a job that the minority will have to attend to for themselves. The Women Investors' judgment is that they're neglecting it. How? Why, by "attacking and deriding" the majority's policies, instead of offering better plans of the minority's own. Unless the minority changes this method, say the women, they'll be "forced into political bankruptcy for lack of public support."

"Be Constructive." All right, what does the Women Investors' research institute suggest?

It suggests that minority members of congress various committees start hearings independently of the total committees' proceedings. These minority gatherings being conducted with a view to development of a general scheme manifestly better than the one today's majority administration is operating under. Mere minority fault-finding with the majority, the women reason, is worse than a waste of time, if the minority sticks to that. It is that there shortly will be no minority at all, unless they're constructive, before long only one party will be left.

Specifically the women urge a minority campaign:

To put agriculture upon a really paying basis; to cut the government's operating overhead; to improve education; to "terminate racketeering in labor fields"; to provide "with the world's best mercantile marine; to make us as nearly as possible nationally independent financially; to take the kinks out of a lot of unsatisfactory laws; to build more roads; scientifically to overhaul our entire tax structure.

As previously remarked, the women consider that we're overly interested in foreign affairs, to the prejudice of our domestic issues. Nevertheless they don't disregard our international relationships. They're for plenty of defensive preparations; for insurance against our future participation in overseas wars; for "collection of our World War debts, either through payment in cash or kind, seizure of debtor collateral in this country and applying it to reduction of our national debt; or reduction of our title to debtor-owned possessions in our hemisphere, thereby eliminating the threat of these being seized by an enemy and used as invasion bases."

Stress Ten Points

There are ten of these points in what the women call their "Legislative Program." They're the ones that the organization wants the congressional minority particularly to concentrate on, or else—the women are afraid we're due for a lone party system; in other words, they warn us, American totalitarianism.

"We are convinced," says the Incorporated Women Investors in America's release, "from our contacts with people in all walks of life, that they want this congress to serve us by returning its attention to our immediate problems here at home."

Now, doesn't that outline seem calculated to interest our isolationists, even majorities, on Capitol Hill?

Mr. Berle And The Future

WASHINGTON, Jan. 31. IN an Administration which for eight years has self-righteously assumed to have a monopoly upon what Mr. Roosevelt likes to refer to as "forward-looking men," it is interesting to note, that in the world crisis with which it is now dealing there seems hardly one who is looking more than a few inches ahead of his nose.

CERTAINLY the President's lack of anything resembling an adequate financial program to carry the vast appropriations for defense is an indication that he is not thinking very far into the future. Nor except for the prediction of great national peril should the British collapse, is there any evidence that anyone else in a position of administrative importance has projected his thought beyond the lend-lease bill. Some of the more advanced of the New Dealers are engaged in an undercover campaign against the industrialists in the defense setup. Some are concentrating upon the present and prospective Supreme Court vacancies. Others are simply absorbed in themselves and their jobs.

THERE is one exception to all this—one man who, taking the long view, is thinking of the problems to follow the war, reflecting upon the terrific task which will then devolve upon us. In a small volume just published by Harper and Brothers and entitled "New Directions in the New World," Mr. Adolf A. Berle, Jr., Assistant Secretary of State, does exactly that. Moreover, he does it in an extremely arresting way—particularly in the most amazing manner. He tells how many of Mr. Berle's ideas early in the Roosevelt regime have been translated into concrete New Deal achievements and that, as one of the Roosevelt brain trust, he has had a considerable influence upon most of the major Administration experiments.

IT is pleasant to record that Mr. Berle's outlook upon the "new world" is not pessimistic. He does not believe civilization is going to crumble and chaos ensue. On the contrary, so far from being on the brink of disaster, it is his belief that the country is on the eve of one of the most amazingly magnificent periods in history. It is not, he asserts, likely to surrender its heritage of personal freedom in order to bring quite illusory economic security, but it must change its intellectual and economic habits.

MYSTERY

Easy 'tis to guess what made Man the first to be afraid.
Having once encountered pain He would flee from hurt again.
Having seen a fellow die Afterwards from death he'd fly.
But what comic act or jest? Stabbed laughter in his breast?

What stirred paleolithic man.
Back when laughter first began?
What was it that made him see Just how comic life can be?
Did some female over late Break the bough on which she sat
Or some proud and haughty chief By some blunder come to grief?

How did man discover wit
And the joy accompanying it?
Fear and lust and hope and doubt Are not hard to figure out
But who knows what happened, when
Laughter came to lighten men?
What was said or seen or done
That enriched man's life with fun?

Charge Production Of Magnesium Controlled

By ERIC FRIEDHEIM
International News Service Staff

WASHINGTON, Jan. 31.—The justice department on Thursday took legal steps to crush a combination of German and American business interests which allegedly are controlling the production of magnesium, a vital commodity used in aircraft and other defense material.

The department announced that a federal grand jury in New York City has returned three indictments charging six corporations and nine individuals engaged in the magnesium industry with violation of the federal Anti-Trust law.

The defendants named in the indictments were:

The Aluminum Company of America; the I. G. Farbenindustrie, a German corporation; the Dow Chemical Company; the American Magnesium Corporation; the Magnesium Development Company; the General Aniline and Film Company; Arthur V. Davis, chairman of the board of the Aluminum Company of America; Roy A. Hunt, president, Aluminum Company of America; and president of American Magnesium Corporation; Wilfred D. Keith, director of Magnesium Development Corporation; Karl Hochwender, president Dow Chemical Company; Earl W. Bennett, vice president, Dow Chemical Company; Hermann Schmitz, member of managing board, I. G. Farbenindustrie; Gustav Pistor, of the I. G. Farbenindustrie.

The indictments charged that several American companies combined and conspired with I. G. Farbenindustrie with the result that there are inadequate facilities for the production of magnesium during the present national defense period.

This conspiracy, according to the department, also has resulted in restriction and discouragement of the development and use of magnesium in the manufacture of airplanes. It has also resulted in a serious shortage of foundry facilities available for the fabrication of magnesium products and has kept magnesium prices in the United States at "artificially and unreasonably high levels."

According to the justice department, the conspiracy has enabled the Dow Chemical Company to become the sole source of magnesium in the United States. When this company sold magnesium abroad, it did so at prices substantially lower than were offered to American users, the indictment alleged.

The justice department said it has been conducting an intensive inquiry into the production of defense materials. This inquiry, it was announced, has shown "startling evidence" of German influence in domestic industries essential to national defense.

"The influence is ordinarily felt through foreign cartels arrangements which give German cartels the dominant position over important technological developments in American industries," the department said.

"Retonga a Blessing To Us"—Mrs. Werner

Months Of Distress From Indigestion, Sluggish Elimination, And Toxic Poisoning Promptly Relieved; Wants Others To Know About It.

MR. ADAM WERNER

Retonga continues its remarkable record of bringing happy relief to hundreds of sufferers from the distresses of nervous indigestion, weak, run-down feeling, toxic pains and similar other harassing symptoms due to insufficient flow of gastric juices in the stomach and the baneful effects of constipation. Among them Mrs. Barbara Werner, lifelong and well known resident of 836 Concord St., Pittsburgh: "Retonga is the greatest medicine I know of," declared Mrs. Werner. "Indigestion, sour stomach and gas bloating were so terrible they gave me little peace for two years. Constipation forced me to take harsh purgatives regularly, which always upset my stomach and caused a blinding headache. Often I was too nervous to sleep enough, and every morning I got up feeling so weak and worn out that often I could hardly stay up."

"Retonga is the only medicine I ever found that seemed to suit my case. Now I eat heartily, my distress from indigestion and constipation are relieved, I sleep fine, and I feel stronger and better than in years. Retonga was simply a blessing to me."

"I can vouch for everything Mrs. Werner says," added Mr. Werner. "I never saw anything like Retonga and I am glad to tell other husbands about it."

Such grateful testimony to Retonga's worth speaks for itself. Accept no substitute. Retonga may be obtained at Pay-Less Cut Rate. —Adv.

The Great Game Of Politics

(Continued From Page Four)

MR. BERLE does not minimize the terrible situation which follows the war, nor the difficulties in the way of our supplying the necessary leadership to establish a new system of world organization—"the system of Cooperative Peace," toward which, he says, "a real beginning has been made in Pan America." Our job, according to Mr. Berle, will be to clear up the staggering accumulation of misery, hunger and need which will face the Old World after the war. It is simply enlightened selfishness for us to do that job—first, because no one else can do it; second, because if we do not do it we will suffer very greatly. Accordingly, Mr. Berle believes, we ought now to be taking the essential preparatory steps.

Among the things he suggests is that we buy and store now quantities of certain key products of which this hemisphere has a surplus and for which we know there will be eventual need. This is not a new idea, Mr. Berle points out. The Surplus Commodities Corporation has been doing it for some years and it works well. The immediate effect will be that the countries of this hemisphere need not find their economic life endangered because they are temporarily cut off from certain markets. Their people will not have to go hungry because they have too much of something. Close economic cooperation with the countries of South America is the basic Berle thought. No American nation, he says, believes it necessary to run the chance of failing under a European political system in order to be economically safe.

ANOTHER interesting idea of Mr. Berle's is concerned with our gold supply. "It seems fantastic today," he says, "to suggest handing over some of our accumulated gold as a free gift to reestablish international currency, to let other nations set their houses in order and thereby reestablish trade and normal life. But a few years hence this may not seem fantastic at all. It seems impossible today to think of using the enormous and as yet untapped resources of the Federal Reserve System to rebuild the shattered life of another continent, but when the time comes we may find the idea looks like an immediate necessity."

These suggestions give an inadequate idea of the things Mr. Berle has in mind, but they at least show the direction in which he is thinking.

OF course, he urges a reexamination and radical overhauling of our banking system. He recommends a bill creating a Public Works Finance Corporation with "suitably guarded re-discount privileges at the Federal Reserve banks." He wants a bill to insure loans for small business, and he wants a bill providing for capital credit banks "whose business it should be to provide capital for those enterprises which need it when they need it." He recommends, in fact, a good many other things to supplement private capital with great pools of federal capital. It is not a new system he proposes, but an adjustment of the old to meet new conditions.

THAT it will work Mr. Berle seems to have no doubt at all, though to laymen he seems a trifle to underestimate the enormity of the problem and to be slightly vague about how it is to be paid for. However, the book is significant as well as interesting. Of course, some day the war will end. What Mr. Berle shows is that if it ends before 1944 the New Deal is not going to lack reconstruction ideas. They may be good or they may be bad, but they will be ideas. Mr. Berle's book just seethes with ideas.

MRS. DAVID WILLIAMS HONORED ON BIRTHDAY

On Thursday afternoon, January 30, Mrs. David Williams graced the role of honor at a lovely luncheon party given in the home of her daughter, Mrs. Louis Southern on Wilmington avenue, with whom she resides, the occasion being planned as a medium of celebrating her eightieth birthday anniversary.

At the table, sat seven dear old friends of Mrs. Williams, who shared the happy event. Pink and white appointments predominated, and a large tiered birthday cake aglow with small pink candles, formed the attractive centerpiece. Novel favors were placed markers, and aiding the hostess in serving the delectable menu, were Mrs. M. A. Brown and Mrs. C. A. Gustafson, also daughters of the honored one. For the latter, who recently returned from India where she has been stationed as a missionary, it marked the first birthday celebration of her mother. She has been here to attend in the past eight years.

Making the day most complete, Mrs. Williams received letters, cards, and telegrams conveying congratulations, in addition to a collection of birthday gifts.

The leisure hours were spent most informally in reminiscing olden times, by the participants, who have been chums during their entire lifetime.

Mrs. Williams is in fair health, and she has a host of friends, who will read with interest, of her party.

STAR CASTLEERS CLUB ENTERTAINED

Star Castleers club members enjoyed the hospitality extended in the home of Mrs. Harold Hartzell on Highland avenue, Thursday evening, when contests in contract bridge held attention. Mrs. Harold Pitzer and Mrs. Howard Boalick were the fortunate prize winners.

Secretary Knox Orders Real Speed On Navy Contracts

**Demands All Available Plants
Be Used In Work On
Navy Building**

(International News Service)
WASHINGTON, Jan. 31.—Secretary of Navy Knox today ordered all branches of the navy to take immediate steps to put to work all available industrial plants of the United States, big and small, to speed construction of the two ocean navy in the nation's drive for total defense.

In instructions to commandants of all naval districts, yards, stations and bureaus, the secretary ordered extension of the "farming out" system to accelerate the preparedness effort.

"All hands must come to a fuller realization of the gravity of the situation and local considerations or desires for ideal equalization of work loads must be sacrificed, if necessary, in the interests of expediting national defense," Knox wrote in his order.

Continuing, he said:
"There are throughout the country industrial plants of greater or less capacity, and even small shops, which have the industrial facilities and manpower that could and should be utilized in national defense work."

"It is, therefore, directed that all addresses 'farm out' or make contracts with such shops for all classes of work assigned to naval establishments whenever such action will expedite deliveries and avoid delays in all kinds of naval work."

Council Awards Some Contracts For Sewer Material

Council met Thursday in the city building and awarded contracts for some of the material which will be required for the construction of a storm sewer between Wilson and Jackson avenues, as a part of the Huron avenue drainage plan.

However, council discussed the possibility of buying cement by the carload instead of accepting the bids offered. It was stated that the city may buy it cheaper if the city hauls the cement in city trucks.

The contracts awarded follow:
Universal Sewer Pipe company: 880 feet of 48-inch diameter segment block, \$3.63 per foot.

Universal Concrete Pipe company: 218 feet 18-inch, 76 feet of 15-inch and 108 feet of 36-inch diameter concrete pipe at \$0.95 per foot; \$0.79 per foot and \$3.35 per foot, respectively.

Mooney Bros., 14,000 brick at \$14.50 per thousand.

New Castle Lumber and Supply company, 52 tons of mortar sand at \$1.95 per ton and six tons of concrete sand at \$1.85 per ton.

Mooney Bros., four catchbasin angles, \$5.90.

Penn. Coal and Oil company, four sets manhole covers, \$26.95 per set, and four sets catchbasin covers, \$12.75 per set.

J. Clyde Giffallan Lumber company, 15 sacks of lime at \$0.45 per sack.

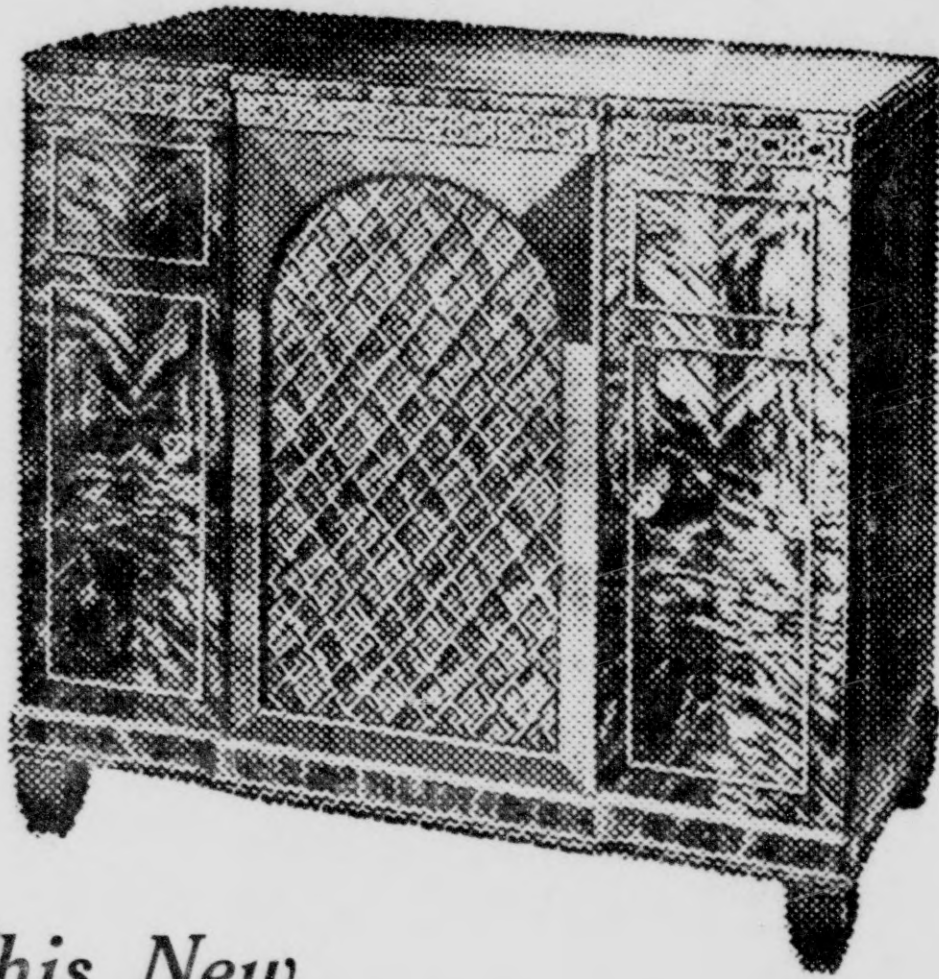

The recommendations were made by Councilman Dunlap, Davies and City Engineer Throop.

Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

(Copyright, 1941, King Features Syndicate, Inc.)

DIPHTHERIA

The knell of diphtheria was sounded a few years ago when a successful method of toxoiding was discovered.

Toxoiding is a very complicated business; much more so than the administering of antitoxin to a person who is already a victim. As

I have explained in a previous article, in the latter process, the body is passive, it doesn't put up a fight at all. What happens is that the antibodies neutralize the poison that is developed by the bacteria.

Today we can take a baby, give him a few injections in his arm that he will hardly feel, and we can render him impervious to the diphtheria bacteria whenever he happens to be exposed to them. For what we do is inject a substance into his body that will enable it to fight diphtheria bacteria all by itself. In other words, we adapt the baby's body to produce its own antitoxin the moment it comes into contact with the disease.

For this, a mixture of toxin-antitoxin mixed with formaldehyde seems to give the best results and there are two different methods of administering it. Here in the province of Ontario, where we have made diphtheria very rare, we give it in three doses. First we give a fairly small injection; then in three weeks we give a stronger one and three weeks later, a still stronger one. In some of the states only two injections are given, but each is much stronger than the ones we give here. Which is the best method isn't really so important. They both work.

When the baby gets the first

small dose, his system sets about manufacturing antitoxin to neutralize it. When he has done this, we give him a second dose, and again his system swings into action, producing more antibodies. By the time he has had the third injection, his body has become accustomed to producing antitoxin. Thus, years later, the child may encounter the disease diphtheria. Immediately his trained blood cells began manufacturing the antibodies, and the disease makes no headway.

We don't know yet how long this immunity lasts because it has been in general use such a short time. My own belief is that it is like vaccination for smallpox. Some people remain immune all their lives from one vaccination, while others need to have the operation repeated every few years. However, this point isn't as important as in smallpox because diphtheria is a child's disease. Once a person is past the age of 20 danger from the disease diminishes rapidly. The oldest victim of diphtheria I ever saw was relatively young—45 years old.

With Judge Charles Matthews, Jr., now on the bench of Lawrence county, Judge W. Walter Brahm gets his third colleague in five years. When Judge Brahm was sworn in Judge James A. Chambers was on the bench as president judge. Judge Chambers resigned before his term was quite finished and Judge Thomas W. Dickey was appointed and sworn in. Within six weeks after he was sworn in as an appointee

he took the oath as a regularly elected judge and now Judge Matthews takes his place.

We may not be in the horse and buggy days but they still use them. On Thursday Attorney William McElwee, Jr., presented a petition to the court asking for authorization to use \$81 for the purchase of a buggy and a set of harness for a juvenile Amish farmer.

District Attorney John G. Lamoree, Assistant District Attorney LeRoy K. Donaldson and County Detective Paul A. Welsh have secured a suite of offices upon the fifth floor of the Lawrence Savings and Trust building while their offices are being repaired after the fire. The two judges will use space in the court house.

Gradually the epidemic of colds and flu which went through the court house is abating and the offices are about back to normal. Hardly an office but had one or two people off sick in the past several weeks.

County Commissioner Joseph P. Travers was in Pittsburgh on Thursday.

BIRTH CERTIFICATES AVAILABLE TO VETS

Commander Harley Shoaff of the newly reorganized D. A. V. chapter here today announced that he has received forms for application of birth certificates by World War veterans.

Any veteran can secure one of these forms, which must contain reliable information of the veteran's birth, furnished and sworn to by parents, god-parents, doctor, nurse, or some other person who has knowledge of the birth. These are then sent to the Bureau of Vital Statistics where an official certificate will be issued.

Birth certificates are a requirement for employment in plants engaged in manufacturing armament for the United States government and other defense necessities.

Hitler's Speech Will Not Affect Policy Of U. S.

(International News Service)

WASHINGTON, Jan. 31.—Chancellor Hitler's threat that "whoever wants to help England will have to realize that whatever ship is going to come in front of our torpedoes will be torpedoed" drew heated remarks from members of the senate foreign relations committee today.

Senator Connally (D., Tex.), said: "We shall not be bullied nor intimidated by Hitler. We have known all along that he had designs on the United States whenever he should feel strong enough to execute them."

Senator Nye (R., N. D.), a leading non-interventionist, declared: "It is just what you would expect from that sort. I don't think we ought to let that prompt us at all."

But provisions of the lease lend bill are a very direct invitation for an attack by Germany on our shipping — an attack which would be expected to find quick retaliation in an open declaration of war."

Senator Pepper (D., Fla.): "That speech will gain support for our bill. It is not news to us that Mr. Hitler is against us, however. American foreign policy is made in accordance with our interests—not Mr. Hitler's interests."

Senator Van Nuys (D., Ind.): "Hitler's statement is a perfectly natural one for him and will not

reflect our situation in the least. Anybody with the slightest knowledge of German-American relations would expect Hitler to make just such a statement."

Senator White (R., Me.): "I don't believe that the speech will affect American policy in the least."

Committee Chairman Walter George (D., Ga.): "The statement was made to reassure the German people that the present lease lend bill was not unexpected by the German government."

PREDICTS DROP IN ENROLLMENTS IN U. S. COLLEGES

(International News Service)

CINCINNATI, Jan. 30.—In spite of a slight increase in total enrollments in the nation's colleges and universities during 1940, Dr. Raymond Walters, president of the University of Cincinnati, predicts a marked attendance drop in future years.

Dr. Walters bases his forecast on the fact that freshman enrollments during 1940 decreased 2 per cent. He feels that this is the forerunner of a trend, which, in a few years, will reduce attendance at our institutions of higher learning.

This decrease in freshman enrollments, says Dr. Walters, should warn educators that universities in the future will have fewer prospective students because of more stringent immigration regulations and a decline in the nation's birth rate.

Going to London?

S. Clay Williams

Chairman of the board of the R. J. Reynolds Tobacco Company, S. Clay Williams is slated for the post of first American Minister to London, according to Washington reports. The new minister is expected to serve as previous ambassadors have done, while the ambassador will act as President Roosevelt's personal emissary.

WANTS BRITAIN TO ISSUE RATION CARDS FOR LIQUOR

(International News Service)

LONDON, Jan. 30.—Saloons in Britain will join company with food shops and show a sign "are you registered with us," if the plan of Lieut.-Col. Ralph R. Stewart is put into operation.

At the annual meeting of the Glasgow Public House Trust, Colonel Stewart suggested that the government issue ration books for intoxicating liquor on the lines of gasoline ration cards, with heavy penalties for misuse of the cards.

Supplies of liquor under such a scheme could be restricted to a fixed maximum quantity per day or per week or per single sale at a time, Stewart said.

Applicants would get their ration cards at a post office under the scheme which Colonel Stewart said could easily be worked out by the government authorities.

SAYS EARTH IS IN FOR 65-YEAR DRY, HOT SPELL

(International News Service)

ATLANTIC CITY, Jan. 30.—Prediction that the earth is in for a 65-year dry, hot spell was put forth here by Halbert P. Gillette, Chicago engineer-geologist.

Tracing weather trends through mud, slate, sandstone layers and growth rings of old trees, Gillette based his conclusion on a 200-year cycle.

"The present trend is strongly aided," he said, "by the 162-year cycle which will have a maximum dryness in 1950; by the 178-year cycle which will reach the climax of its dry effect in 1946, and by the 36-year cycle, whose maximum occurs in 1948."

"In Yellowstone park," continued Gillette, "springs have almost ceased to flow and many of the geysers have ceased to spout. The Gila river in Arizona is delivering so little water that the Coolidge dam is at present useless."

OREGON RIVER IS WORLD'S SHORTEST IN SIZE AND NAME

(International News Service)

PORTLAND, Ore., Jan. 30.—It's the shortest river in the world and it probably has the shortest name of any river.

This river—which will no doubt

attract the attention of Believe It or Not Bob Ripley—is exactly 400 feet long and it's name is "D."

The unusual stream forms an outlet for Devil's Lake in northwestern Oregon to the Pacific Ocean and was named in a contest which drew more than 400 suggestions from all parts of Oregon and several states and countries.

One attempt to further cement the relations between the British Empire and the United States was noted with the suggestion of an Australian that the river be named Franklin D. Roosevelt.

The difference between pasteurized and certified milk is that pasteurized milk has been heated to about 150 degrees Fahrenheit for 30 minutes, and then rapidly cooled. Certified milk is raw milk taken from cows that have been made immune from tuberculosis under most sanitary conditions.

Now You Won't Have to Build a New Garage

Four New Additions to the Buick SPECIAL Line now give you Big-Car Pleasure in More Compact Size!

Buick SPECIAL 4-door Sedan, model 47, \$1021. White sidewall tires extra*

IN search for impressive size, cars I have been getting longer every year.

Bumper has retreated from bumper until there's hardly room left in the family garage for the lawn mower and the good wife's gardening basket.

Does that mean you'll have to build a new garage to enjoy a big car's glories? Not now!

For there are four new Buicks on the market—additions to our 1941 SPECIAL series—that let you indulge your big-car tastes in spite of 1929-car-size garages.

*Optional on the Buick SPECIAL; standard on all other series.

They are big cars in ability—with a 115-horsepower Buick FIREBALL engine that can be stepped up to 125 "horse" by the addition of Compound Carburetion.*

They are big cars in their room—with plenty of leg-, elbow- and head-room in their spacious interiors.

But—they fit your garage, handle like baby carriages, park on small change

—all because we have trimmed down their bumper-to-bumper length!

So if you've been itching for a big car—but wondering where you'd find room for it—better hop right over to see these beauties now. You'll call them the season's biggest news!

School Musicians Display Ability

Combined Grade School Orchestras In Pleasing Concert Thursday Night

New Castle grade school musicians displayed their ability in concert Thursday night when a combined grade school orchestra joined with the Mahoning school orchestra in the senior high school auditorium.

To those in the audience who had never heard the youngsters before the concert was a revelation. Orchestras numbers that tax the ability of players much older were presented in creditable fashion. The Mahoning orchestra appeared jointly with the combined orchestra and also appeared by itself.

The numbers were directed by the following teachers: Miss Virginia Callahan, Miss Lois Otto, Miss Mildred Gresham, Miss Emma Gibbons and Miss Ann Thomas. The Mahoning orchestra was conducted by Miss Gladys Thomas.

Paralysis Fund Benefits By Dance

Pearson Street Boys And Girls' Club Aids Fund With Dance Proceeds

"Do unto others as you would have others do unto you" is the slogan of the Pearson Street Boys' and Girls' club who held a dance for the benefit of the Prevention of Infantile Paralysis fund, Wednesday night in Orr's hall and, from underprivileged boys and girls, realized a net profit of \$12.15. Incidentally the sum will help some unfortunate boy or girl in New Castle to receive a brace, pair of crutches or other aid.

The group determined some time ago to sponsor some move whereby the organization could aid some worthy cause and it was decided that a dance on the birthday of President Franklin D. Roosevelt would be appropriate and Wednesday night it was carried out successfully. According to those in charge this was only the beginning of similar worthy movements.

Frank Callern was chairman of

the dance and was assisted by: tickets, Sam Janacone and Theresa Alfara, co-chairmen; reception, Gene Pace and Pauline DeFiori; entertainment, Roy Scarazzo and Sylvia Lombardo; ushers, Angelo Calern, Sonny Russo, Anthony Russo, Hugo Aspermonti, Bill Graham, Donald Alfara and Bill Summers.

The dance was under the supervision of Charles Richards, Carmen Natale, Louise Filigenzi and Jennie Macarella, recreation leaders. Patrons were Frank Baptiste and Joseph Giangulli.

There ain't no justice. The government will buy stock, seed and land for a farmer, but let's see a printer or barber get equipment for a shop.

Niles To Shoot At Local Range

The Niles, O., rifle team will come here tonight to the Cathedral range for a Penn-Ohio league shoot with the New Castle rifle club at 7:30 o'clock. It was announced by Secretary Ray Hammond.

The New Castle club won the first half championship and hope to come through in the second half. All members should report tonight, as Niles will bring a strong team here.

COUNTY-WIDE FRUIT MEETING

The Production and Marketing of Quality Apples will be the theme of an all day County Wide Fruit Program to be held Wednesday, February 5th in the Agricultural Extension Office, No. 206 Post Office Bldg., New Castle.

The meeting will begin at 10:00 o'clock in the morning and will be completed shortly after 3:00 o'clock in the afternoon.

The complete program includes: "Apple Diseases and their Control"—H. W. Rankin, Plant Pathology Specialist, State College.

"Aphid Control Demonstrations in Lawrence County"—James E. Kelso, North Beaver Township.

"New Developments with Insecticides"—L. E. Dills, Entomology Extension Specialist, State College.

"The Effect of Thinning on Quality Apple Production"—A. F. Arnold, Little Beaver Township.

"The Maintaining of Orchard Fertility"—John Ruef, Fruit Specialist, State College.

"Small Fruit Diseases"—H. W. Rankin.

"Common Fruit Pests and their Control"—L. E. Dills.

LIVER EXCELLENT AND CHEAP SOURCE OF IRON

Glandular organs of animals—kidney, brain, heart, and liver—deserve an important place in the family diet. Strangely enough, when these must be bought, they are found at the bottom of the butcher's price list, but during the butchering season on farms, these meats are available at no extra cost.

It should be said that these organs have the same virtues as muscle meats, but to a greater degree, according to Miss Julia Markle, home economics extension representative, Lawrence County. They are good protein foods besides being excellent sources of iron and rich in vitamins A, B, and G. Although the food value varies all make important contributions toward a good diet.

Liver is an especially rich source of iron. Pork liver contains three times as much iron as beef liver, while calf and lamb liver contain only three-fourths as much as beef. Calves' liver is tender, has a delicate flavor, and is generally liked. Baby beef liver approaches it closely in all characteristics except that it is not quite so tender.

Broiling, braising, and frying are the most common ways to serve liver. Because most people are far from neutral about liver, they have a strong liking or an active dislike. It is important that we use intelligence in care and cooking. For variety in serving, Miss Markle suggests liver patties and liver loaf.

Liver Patties

1 pound liver (sliced),
1 cup cooked rice or 1-4 cup bread crumbs,
2 teaspoons grated onion,
4 tablespoons bacon fat,
6 or 8 strips bacon,
1 egg,
2 teaspoons salt,
Few grains pepper,
1-4 cup strained tomatoes.

Cover liver with boiling water, let stand 2 minutes. Remove skin and put through coarse grinder or chop.

Partially fry bacon. Add half the bacon fat and all other ingredients except the partially fried bacon to the ground liver. Mix well. Form liver mixture into patties, surround with a slice of bacon and fasten with a toothpick. Place in fryer pan with rest of bacon fat and broil in oven or on top of stove. Broil each side 5 to 7 minutes. Serves 6.

Liver Loaf

1 pound liver,
1/2 pound ground pork,
1/2 pound ground beef,
1 egg,
1 tablespoon salt,
1-1/3 tablespoons minced onion,
1/2 cup bread crumbs, or 1/2 cup cooked rice,
3-4 cup strained tomatoes,
1 slice bacon.

Scald liver with boiling water for 2 minutes. Remove the skin and grind the liver. Mix all ingredients together except bacon. Put into loaf pan. Cut bacon in small pieces and sprinkle over top. Bake in oven at 325° F. for 1 hour. Serves 8.

STIMULATE APPETITE OF HENS TO EAT FEED

There are a number of little things that the poultryman can do to encourage hens to eat more feed. These small tasks will not take much time and will get results.

Provide fresh mash every day. Move mash at the bottom of the hopper to one end of the hopper before putting in fresh mash.

Stir mash each time the caretaker is in the laying pen.

Scatter small amounts of scratch grains in the litter occasionally on cold days.

Feed supplementary feeds, such as wet mash, pellets, and condensed milk.

Avoid feeding too much succulent feeds, such as cabbage. Give no more than 5 pounds per hundred birds daily.

Do not scare birds when entering pen.

POULTRYMEN PLAN FOR NEW PULLET CROP

Guided by experience and knowledge of the importance of timeliness and preparation in successful management, many Lawrence County poultrymen have been planning their 1941 pullet-rearing operations.

Such planning, in addition to consideration of when the chicks are desired and how buildings and equipment will best be used during the brooding and rearing period, includes the six points of Pennsylvania's Grow Healthy Pullet program.

These points are clean chicks, clean brooder house, clean litter, clean feed, clean management, and clean ground.

Over a 12-year period numerous poultrymen have been aided in building vigorous pullet flocks by application of these principles. Rearing flock losses by death have remained well below 10 per cent during all those years for cooperators who

followed most of the recommendations.

In 1940 this group kept their losses down to 6 per cent, while those who failed to observe any or relatively few of the practices suffered a loss of 14.7 per cent.

PENN STATE OFFERS HERDSMEN'S COURSES

Separate short courses will be offered at the Pennsylvania State College by the departments of animal husbandry and dairy husbandry from March 10 to 15, according to an announcement from A. L. Beam, director of short courses for the College.

These courses are arranged particularly for herdsmen and others who wish to obtain or review information on subjects related to the livestock and dairy industries.

The subject-matter covered will deal with the breeding, feeding, care and management of all classes of livestock. Special attention will be given to the problems of disease control.

Professor Beam announces that applications for these courses should be made before March 1. Detailed information may be obtained from him.

BRITISH ARMY PAY

A private in the British army gets 40 cents a day and the commander in chief gets \$40 a day. According to their rank, a sergeant gets \$1.50; lieutenant, \$4; captain, \$5; major, \$8; colonel, \$12, and major general, \$20. An army chaplain receives \$17 a day.

BRITISH MUNITIONS DUMP IS REPORTED BLOWN UP BY NAZIS

BERLIN, Jan. 31. — A German bomber yesterday successfully at-

tacked a troop camp near the English southeast coast, hitting and blowing up a munitions dump, the German high command announced today.

A long-distance bomber sank a 4,000-ton British merchant ship about 225 miles west of Ireland, the announcement added.

Other bombers attacked British airdromes at Hildenhall, Wattisham and Honington, destroying numerous planes on the ground and numerous hangars, it was claimed.

There never has been a United States law to designate how the stars in "Old Glory" shall be placed. First they were put in a circle, then arranged as a large star, and when the number of states rose to 48, were placed in rows.

Controversy Over Army Medical Expansion Scope

By JACK VINCENT

International News Service Staff
Correspondent

WASHINGTON, Jan. 31.—The U. S. Army Medical Corps expansion program became the subject of controversy today with senate non-interventionists charging that medical supplies beyond normal needs are being built up in anticipation of war.

The charges—just as vigorously denied by the army high command—were voiced by Sen. Hiram Johnson (R) Calif., a veteran member of congress and a lead non-interventionist.

Johnson, a member of the senate foreign relations committee, brought the subject up before the committee while Secretary of War Stimson was testifying on President Roosevelt's lease-lend bill.

He asked Stimson pointblank if it wasn't true that the corps was being expanded in anticipation of war. Stimson denied it, and said that the corps is being expanded only to meet the national defense training program.

Preparation for War?

Sen. Clark (D) Mo. another non-interventionist leader, said:

"I have reliable information that President Roosevelt has asked the Red Cross to make 4,000,000 surgical dressings for the army."

He was asked if he believed this was in preparation for a war.

"That is my conclusion," Clark answered. "I can't see why so many would be necessary for any other purpose."

For Mock Warfare

There also was a lively discussion over reports that the army had ordered 4,500,000 wounded and identification tags. Stimson said that the tags were for mock war games because every man supposedly "wounded" in maneuvers had to be tagged as "wounded" and sent to the rear.

There is no thought of a war army of 4,500,000 men, Stimson insisted. Sen. Byrnes (D) S. C., an administration supporter of the lease-lend bill, brought out a Stimson statement that there was nothing unusual about the tag orders. But during Byrnes' questioning of Stimson, Johnson mumbled:

"How many coffins is the army buying?"

Johnson's voice was so low that it was heard only by a few people, and his question went unanswered. Sen. Nye (R) Calif., said that the controversy reflected the fears of himself other non-interventionists that the bill might lead to "war and bloodshed."

Poultry Raisers Of County Meet

All-Day Program Takes
Place In Post Office build-
ing Thursday

STATE COLLEGE EXPERTS SPEAK

Lawrence county poultry raisers had their fourth annual county-wide meeting in the Post Office building Thursday when an all-day program of talks on different phases of the industry and motion pictures showing the latest and most approved methods used in growing healthy chickens and producing quality eggs were shown. There was an exceptionally large attendance present.

The meeting opened at 9:45 o'clock in the morning, and resumed again at 1 o'clock in the afternoon following a recess for lunch.

H. H. Kauffman and C. O. Dossin, poultry experts from State College, were present and led in the discussion on different topics pertaining to poultry raising.

The program was as follows:
"Rearing Healthy Pullets"—Motion picture.

"Commercial Advantages and Limitations of Cross-bred Chickens"—H. H. Kauffman, State College.

"A Few Unusual Practices Followed by Poultrymen in Southern Pennsylvania"—C. O. Dossin, State College.

"Cafeteria Feeding Poultry"—A. P. Arnold, Little Beaver township.
"Factors That Influence Profits and Losses in the Poultry Business"—H. H. Kauffman.

Questions.

Noon recess.

"Production and Marketing of Quality Eggs"—Motion picture.

"A Report on Pennsylvania Quality Egg Program"—C. O. Dossin.

"Summer and Fall Management of Turkeys"—Motion picture.

"Growing 1,000 Turkeys"—Walter Aiken, Slippery Rock township.

"Some Recent Observations in the Turkey Industry"—H. H. Kauffman.

Questions.

Adjournment.

Stamp Collectors May Get Holiday Seals At Office

Local stamp collectors who desire to add the 1940 Christmas Seals to their collection, may secure any number of them from the office of the Lawrence County Tuberculosis Society, room 219, Lawrence Savings & Trust company.

Miss Della Glenn, secretary of the society, stated today that many returns for the seals are being made daily. She also wished to remind those who have put off making remittances that the society would appreciate hearing from them as soon as possible.

Dump Wine Into Creek At Mercer

(Special To The News)
MERCER, Jan. 31.—Water and the ice of Neshannock creek below Mercer will be tinted red today, after County Detective Arthur C. Barnes and county employees dump eight barrels of red wine into sewers of the county jail.

Judge George H. Rowley today issued an order for disposal of the wine, which was confiscated in December by Barnes at a farm in Shenango township. It is no longer needed as evidence, as Valentine Fumich, Shenango township, pleaded guilty to illegal possession of it and was sentenced on January 3 by Judge Rowley to pay a fine of \$100.

Fumich claimed that he did not own the wine, but that it belonged to neighbors who had stored it in his cellar.

Willkie Scheduled To Meet King And Queen Today

Spends Morning On Motor Tour

Willkie Will Be Guest Of Lord Derby On Sunday Night

TO VISIT BOMBED CITIES ON MONDAY

(International News Service) LONDON, Jan. 31.—Wendell L. Willkie, who is scheduled to have tea with King George VI and Queen Elizabeth this afternoon, spent the morning motor-touring quietly through the countryside surrounding London.

On Sunday night Willkie will be the guest of Lord Derby at Knowsley in Lancashire and on Monday he will visit the heavily bombed cities of Manchester and Liverpool.

Visits London "Pub"

Yesterday the former Republican presidential candidate visited a London "pub" and later discussed British naval affairs with First Lord of the Admiralty A. V. Alexander. Last night he dined with Minister of Information Alfred Duff Cooper.

Harry Hopkins, president Roosevelt's personal representative in London, toured London's air raid shelters last night.

In one, where the shelterites were about to retire for the night, Hopkins chatted with them for several minutes. He asked whether their berths were comfortable and was assured they were "fine".

GIRLS' CLUB HAS MEETING THURSDAY

Fifth Ward Senior Girls Club members held their meeting in their Pollock avenue clubrooms recently.

Jennie Macarelli, advisor, highlighted the session with a talk. She stressed cooperation and outlined the various rules and regulations of the organization. Ann Turco, president, discussed various handicraft projects to be undertaken.

The next meeting will be held on February 12.

BOYS GROUPS ENJOY PARTY THURSDAY

Members of the Pearson Street Midgets and Junior Boys Club were guests of Frank Baptist at a delightful party held in Orr's Hall, Grove street, Thursday evening.

Games and a musical program highlighted the evening. Selections were offered by the Johns sisters and Miss Yarnoz.

Peter Richards, leader, introduced the various officials.

Bess says the Norwegians are reconciled to Nazi rule. For that matter, very few slaves in the old South invited death by rebellion.

New Wilmington News

Mr. and Mrs. R. C. Stevenson of Plaingrove were callers in town on Saturday.

John Ammon, of east of town, is recuperating after a week's illness due to cold.

Mrs. Mazie Cleckner who has been quite ill is recovering slowly.

Mrs. John Waite, Sr., spent the week with her son, Howard Waite, of Edgewood.

The cutting committee of the Red Cross unit here met at the home of Mrs. Lida Greer on Thursday evening.

Several people, who enjoy the privilege of owning a sleigh, have been taking advantage of the snow and ice and are very popular among the younger set.

Dorris Fulkman, who was badly injured during the deer hunting season, was discharged from the Warren General Hospital, Warren, Pa. last Sunday. Mr. Fulkman was brought home and is able to be about the house some.

The family of Rev. D. R. McCalmont, who have been ill with flu are all recovering slowly.

Mr. and Mrs. Clyde Hoagland were Sunday callers in the F. A. Hoagland home of Stoneville District.

The Garden club of New Wilmington will meet at the home of Mrs. Jane Yahn of Park avenue on Monday evening, February 3.

The guest speaker for the evening will be Mrs. Nellie Clark of New Castle and she will speak on "Birds".

The Happy Hour Society will meet on Tuesday evening, February 4 at

the home of Mrs. Leo Plotts with Mesdames T. I. Fulmer, George Chapin and Clyde Monroe as co-hostesses.

At this time the New Wilmington Unit of the Red Cross has turned in about 440 finished garments since October 1, 1940.

Fullerton Named Defense Chairman

(International News Service) HARRISBURG, Jan. 31.—Pennsylvania's agricultural defense effort was accelerated today by the appointment of defense committee chairman in 20 counties by Secretary of Agriculture John H. Light.

Secretary Light, who is also chairman of the Pennsylvania Advisory Agriculture Defense Council, said that the county organizations will aid in placing work planned by the council and in undertaking surveys.

County chairmen appointees included: Joseph Bullers, Brookville, Jefferson; and Sharp Fullerton, New Castle, Lawrence.

AMERICAN FLIERS AIDING BRITISH

(International News Service) LONDON, Jan. 31.—The American eagle fighter squadron—all-American unit of the R. A. F.—has completed its final training and now is in active service guarding Britain.

It was announced in London today. Composed entirely of American aviators, the squadron is commanded by Squadron Leader W. E. G. Taylor, 35-year-old Kansas alman.

Officer Arrests Two Youths In Service Station

Two Accused Of Entering South Mill Street Station Early This Morning

Two youths were held in the city jail today having been captured in a gasoline service station at 2:35 a. m. today by Patrolman Nick Cubellis, a temporary appointee.

The only loot the youths got were 11 nickels, according to signed confessions. The youths are being in-

terrogated concerning other recent burglaries here.

The youths, both 19, are Bartholomew, alias Bert Wells, Poplar street, and Louis Forsythe, North Walnut street.

According to Chief of Police Willis G. McMullen, the youths signed confessions which stated they had entered the Love Coal company office and the Tydol station, both in South Mill street.

The youths, he asserted, had first entered the Spur Gasoline station through a rear window then made their way into the Love Coal company office where they robbed a candy machine of seven nickels.

They then broke a window and entered the Tydol station at Lutton and South Mill streets, where they reportedly found and took four nickels lying on a cash register.

While they were in this station, Patrolman Nick Cubellis, on patrol,

heard a noise in the station, threw the rays of a flashlight into the station, saw the young men, commanded their surrender, handcuffed them, then had them taken in a police car to police headquarters.

Today Chief McMullen and detectives were interrogating the boys to determine if they were connected with other recent burglaries. Up to noon they had steadfastly denied participation in other robberies.

WRITING SCHOOL BOOKS

City Assessor J. W. Cartwright stated today clerks are copying old school tax duplicates from data compiled for the city.

Typical broadcast from Goebbel's office: "Calling all newspaper editors. Write about President Roosevelt. Be mad. That is all."

CHICAGO POLICE SEIZE GUNS OF TWO YOUNGSTERS

(International News Service) CHICAGO, Jan. 31.—Excitement subsided today in Chicago's union railroad terminal after police, responding to calls from a number of alarmed travelers, swooped down on two heavily armed youths in the depot and relieved them of three guns.

To the officers, who demanded an explanation, Lawrence Ahlstrom, aged 12, and Ted Matusiewicz, aged 11, explained they merely were going rabbit hunting. The guns, stuck jauntily in the lads' belts, proved to be a 22-caliber target pistol and two toy revolvers.

It is thought the automobile of the future will have a plastic body.

Buses Replace Butler Trolleys

BUTLER, Jan. 31.—The wheels of progress pushed shut the door on one era and opened another at noon Thursday as a car of the Butler Street Railways company, for the last time rolled down the city's main street, closely followed by the buses that took over transportation service for the city.

The last car with its load of invited guests plodded its way north on Main street to the intersection with North street, where the guests were transferred to one of the buses, which returned them to the court house square.

Women Use Seven Wiles To Snare Elusive Males, Movie Director Claims

(International News Service)
HOLLYWOOD, Jan. 31.—Director Ralph Murphy pushed his stocky frame down in his directorial chair, stuck a stogie in one corner of his mouth, and delivered a discourse upon the technique of the female in the pursuit of the male.

Mr. Murphy claims that an analytical study of the question over a period of so many years, that he would prefer not to disclose the exact number, has led to the discovery that there are only seven fundamental techniques used by women.

Murphy has catalogued the techniques under the following headings: The allure; the flattery; the helpless girl; the direct approach; the efficiency; the coquette; and the undecipherable.

The director has ample qualifications for such a scientific study. He is a graduate of Syracuse University, where he specialized in literature, philosophy, and psychology; and he has been a stage and motion picture actor, producer and director for years, during which he has had to deal intimately with the boy meets girl, girl gets boy angle.

So, Murphy chewed on his cigar authoritatively and expounded:

"Of course," he said, "women love to imagine that they are mysterious, and they surround their techniques

with a lot of camouflage to make the techniques involved. That's what gives movie directors gray hairs. Look at my case at present.

"I have three girls in 'Las Vegas Nights.' Each girl would use a different technique. Each technique would require eight reels to unfold. So what do I do? I let Constance Moore get her man with the direct approach technique. I give Virginia Dale a man before the picture starts and I leave Lillian Cornell out on a limb with nary a male in sight.

"And Lillian's going to be the reason that the critics will say, 'I don't believe it.'"

After he got his own immediate woes off his chest, Murphy settled back to elucidating upon his classifications.

"The allure technique is that of the predatory female," he explained. "It is used by a woman who is conscious of the fact that she has an enormous amount of feminine appeal for men. She turns on the appeal whenever she spots a man she wants, regardless of whether or not that man is the property of some other girl. A screen example would be Hedy Lamarr.

"The flattery technique is used by women ranging from the baby-talk girls to the mothering type," he went on. "They carefully analyze the ego of their choices, and then adopt the approach needed. For example, the intelligent girl gives a man the impression that she is completely oblivious to everything except what that man is saying at the moment. The man is captivated—and he usually stays that way."

The next one, he said, is the "helpless girl."

"But don't get the idea that they are really helpless," he warned. "They just give that impression. Looking at them, men get the urge to tense their biceps and stand between the poor things and the world. Bonnie Baker, for example.

The "efficiency" technique is designed to give a man the impression that the girl is such an ideal helpmate that the man "just couldn't get along without her."

She usually is a scientifically perfect wife who sees that the sex are scientifically darned and that scientific meals are on the table at the proper time, and raises scientifically perfect children. She is efficient enough to save off any predatory female if she wants to hang onto her man. If she doesn't, she is efficient enough to get a good settlement.

The "coquette" technique is the girl of the flirtatious type, whose eyes say that "if you chase me I'll run—but not too far." Virginia Dale is of this type.

Then, he turned to his final classification, the "undecipherable." He said: "This is the girl who is not brilliant and not dull; she is not beautiful and not homely she is at home in a night club or in a kitchen. Every girl asks, 'What has she got?' The answer is simple. 'She's got the man that a lot of other girls wanted.'"

Center Girls Aid "March Of Dimes"

Residents Of N. Y. A. Center Stage Private "Birth-day Ball"

In order to take part in the infantile paralysis "march of dimes" drive, the girls of the Crawford-Oakridge N. Y. A. Resident Work Experience Center, Atlantic avenue, staged a private "president's birthday ball" Wednesday evening at Sylvan Heights club house.

A sizeable sum was turned over to the "march of dimes" fund following the dance, according to Mrs. Rose Simonis, resident director of the center.

Many guests took part in the formal affair and danced during the hours to music played by Carl Benne and John DiCarlo and Ed Campbell, who donated their services in this worthy cause.

During the business period, Barbara Johnson was elected to the post of vice president. The worship period was in charge of Doris Ringler, Miss Johnson, Tyra Olson and Donna Park.

Games were played and a delicious luncheon was served by Mrs. David Evans, aided by the hostesses. Next meeting will be on March 7 with Maxine Calvert and Norma Lee Fulton as hostesses.

HITCHING SLEDS TO CARS IS DANGEROUS

Persons residing west on Madison avenue and Cherry street have reported the fact to police that youngsters are hitching their sleds to the back of automobiles on these two streets nightly.

According to reports, the youngsters fasten their sled ropes to the automobile bumpers when the car has stopped for a stop sign.

This is an exceedingly dangerous practice. With the streets as slippery as they are, it wouldn't take much

Airfield Work Resumed Today

(International News Service)
DAYTON, O., Jan. 31.—Work on the \$1,500,000 expansion program at the U. S. Army's airfield at Dayton resumed today as 400 to 500 A. F. of L. building trades workers agreed to end their protest strike to the employment of four CIO members on an electrical project.

The federal government settled the Wright Field dispute by suspending the controversial project. The A. F. of L. men had been on strike since Wednesday. They promised to return to work today.

The Penner Installation Company, of New York, handling the electrical job, contended it had a closed shop agreement with the CIO. The federal government ordered the project stopped "pending further investigation."

Automatic Pilots For Army Bombers

(International News Service)
PHILADELPHIA, Jan. 31.—Invention of an automatic pilot which can carry an army bomber into enemy territory, release its messengers of death and return to the home base was revealed to the American Institute of Electrical Engineers today.

Despite the fact that Germany, England and France have worked on plans for such a bomber for years, no other nation has developed the automatic pilot invented in army air corps laboratories, according to Dr. C. D. Barulesco, former army air research engineer, now teaching at Antioch college, Ohio. "Germany can probably take a plane off and fly it in an objective automatically," said Dr. Barulesco, "but I am sure Germany can't land it or bring it back to the home base." The Ohio professor was corroborated by T. B. Holliday of the army air corps.

For Foggy Weather
"In broad daylight, the enemy could probably intercept such bombers," said the speaker, "but this is primarily a weapon to be used in foggy weather. The bomber gives out no radio emanations and it is not following a radio beam which can be detected."
Dr. Barulesco explained the bomber could be taken off and set

on a course by the Sperry directional gyroscope and automatic pilot and kept on the course by a radio compass. When the objective was reached, he said, an automatic timer would go off, releasing the bombs and turning the plane toward home. Once back at the base airport, a series of five radio beacons would head the plane into the wind and land it, according to the engineer. As the wheels touched earth, the motor automatically would be shut off.

Neshannock Twp. Fire Truck Will Encounter Delay

Delivery Date Has Been Set
Ahead From February 1
To Middle Of Month

Neshannock Township Volunteer Fire Department will take delivery on the chemical truck which was purchased recently, sometime between February 10 and 15. Because of an unforeseen delay in the delivery date for Mayfield township's new fire truck, the truck purchased by the local outfit must remain in service until the new truck is delivered.

Representatives of the Neshannock township group will go to Mayfield township to drive the truck to New Castle.

COMPILES LIST OF BEST - TRESSED MEN' IN AMERICA

(International News Service)
HOLLYWOOD, Jan. 30.—Every year the newspaper columns are well sprinkled with assorted selections of the nation's "ten best-dressed men," but now the "ten best-tressed men" figure in the news.

Author of this unusual list is make-up expert Max Factor Jr., who released his candidates for America's Hall of Fame as the nation's "Ten Best-Tressed Men." His selections were based on the durability, attractiveness, and qualities of personality of some famous heads of hair.

Wendell L. Willkie was chosen as the man with the "hair of the year" on the basis of the seeming strength and attractive dishevelment of his locks. Film Actor Gary Cooper was selected for much the same reason. Jeffrey Lynn, Paul McNutt, Henry A. Wallace, Tyrone Power, Leopold Stokowski, Charlie Chaplin, John Halliday and Jimmy Stewart complete Factor's list of the "Ten Best-Tressed Men" in America.

FEDERAL PROJECT TRAINS GIRLS FOR KEY DEFENSE JOBS

(International News Service)
NEW YORK—In an effort to fill the defense needs for skilled labor, the National Youth Administration has instituted a project in Connecticut under which girls are being trained to operate turret lathes, shapers and drill presses in the machine-too industry.

Federal machine tool establishments have been set up in Stamford, New Haven, Norwich and Danielson and plans are under way for units in other cities.

Richard A. Barrett, state N. Y. A. administration, explained that the project is not a school course, but that the girls start right at the work that is needed. The foremen are obtained through employment agencies and applications filed thru other sources, he said.

Under the plan, the girls are learning their work as they produce and are paid regular wages. Work done by the N. Y. A. girls is furnished by the federal, state and county governments.

Enlist 48 Youths For Army In Month

New Castle Office Announces
Four Enlistments For
Thursday

Four enlistments for the United States Army on Thursday, closed this month's recruiting activities at the local station, with the number of recruits well ahead of that of last year.

According to Sergeant Owen E. Tighe, the following men were enlisted:

Charles H. Ferver, son of Mr. and Mrs. Harold H. Ferver, 429 Norwood avenue, Air Corps, Lowry Field, Denver, Colorado.

Joseph Isabella, son of Mr. and Mrs. Vincent Isabella, 1115 Croton

avenue, Ordnance Department, Aberdeen Proving Grounds, Md.

Mike P. Jacob, son of Mr. and Mrs. Joseph Jacob, 325 East Long avenue, Quartermaster Corps, Carlisle Barracks, Pa.

Carl G. Guerrini, Greenville, Air Corps, Lowry Field.

There were 48 enlistments from the local army office, for the month of January. This figure was eight larger than the number of enlistments for January, 1940, according to Sergeant Tighe.

Jury Deliberates Case Of Attacker Of Wealthy Woman

(International News Service)
BRIDGEPORT, Conn., Jan. 31.—A jury of six women and six men today received the case of Joseph Spell, Negro chauffeur-buttler, charged with assaulting his socially prominent employer, Mrs. John K. Strubing, Jr.

Judge Carl Foster placed the case in the jury's hands immediately following completion of his charge this morning and the jurors retired for their deliberations.

In his own defense spell took the witness stand to deny the charge of Mrs. Strubing, who also testified as a state witness, that he had assaulted her, forced her to write a ran-

som note and then threw her into the Kensico reservoir from which she made her way to safety.

Mrs. Strubing's story was that she had been overpowered by her employee upon emerging from the bathroom of her home. Spell contended she had submitted to him without resistance.

EDENBURG

Mr. and Mrs. Willis Doudna of North Lima were in town Tuesday to attend the funeral of Harry Wallace.

Snow-Bound Boxes Making Trips Hard For Rural Postmen

Postmaster William R. Hanna today advised rural mail route patrons "to keep approaches to mail boxes cleared of snow" or risk getting missed by the mailman.

The postmaster issued the reminder after one of the rural men, returning to the office far behind schedule, told him:

"I got out of my car 50 times today to wade through snow to the boxes. I'm an hour late right now." Hanna said postal laws require residents to clear a path for the carrier's car.

Swimmers are warned to stay out of the water during an electrical storm.

the new contribution to

NATIONAL DEFENSE

In furtherance of the government-sponsored program for a healthier America, Pillsbury's Best Flour is now being enriched with vitamin B₁, nicotinic acid, and iron—three vital food elements.

The greatest single factor in our national defense program is the health and vigor of our citizens. We, therefore, are happy to be privileged to share in its support.

Our new Enriched Flour will be made available in all stores as rapidly as distribution can be completed.

Babson Discusses New S. E. C. Policies; Sees Some Benefits

By ROGER W. BABSON
Copyright—1941—Publishers Financial Bureau, Inc.

WASHINGTON, D. C., Jan. 31.—The new policy of the Securities & Exchange Commission should be good news to every part of the country but New York—and perhaps not even New York.

This is what I learned yesterday when passing through Washington. The SEC has nothing against the New York Stock Exchange per se, but it does not want it to have a monopoly of all the stock exchange business. This is its main reason for objecting to the New York Stock Exchange attempt to prevent its members from operating on other exchanges. The commission feels that this is a deliberate endeavor, on the part of the New York bankers, to dry up these other exchanges and put them out of business.

Decentralization the Keynote

I find, however, that the SEC has some reasons for this move which should be very helpful to cities in the central west, the south and on the Pacific coast. The commission is not opposed to speculation provided it is carried on in a legitimate manner and distributed properly throughout all sections of the country. It, therefore, believes that the smaller stock exchanges, in the smaller cities, should be strengthened and even subsidized, rather than handicapped as the New York bankers apparently want to handicap them.

Such a decentralization program should encourage more trading in the securities of smaller companies and thus "decentralize" the trading which is now confined to the blue chips. This program should not only broaden the market, but also tend to prevent the terrible "up-and-down" fluctuations which are inevitable when the dealings are 80 per cent in the blue chips. Naturally, New York bankers and owners of New York real estate will fight this movement; but it should be backed up by all interests in other cities.

Already the SEC has regional offices in several cities as follows: Atlanta, Boston, Chicago, Cleveland, Denver, Fort Worth, New York City, San Francisco and Seattle. In addition, it has branch and temporary offices in Detroit, Los Angeles, New Orleans, Orlando (Florida), Philadelphia, Jackson (Miss.), St. Louis, St. Paul and Tulsa. The new idea, however, contemplates that, beginning next month, there will be complete registration facilities in their Cleveland and San Francisco offices. If this program is satisfactory and increases the number of new issues put out, it will be extended to other cities where the SEC now has offices.

This new program is also important in showing a changing attitude on the part of the commission. It has concluded that both a restoration of employment and sound defense requires that industries be encouraged to issue new securities and that investment bankers be helped to market these securities. The proposed legislation affecting bank holding companies is another step along these lines. This new attitude should be of benefit to every reader of this column, whether factory owner, merchant or wage worker.

The Utility Program

I am sorry to say that I have not found any inclination in Washington to make life easier for the utilities. For a few months before election, it seemed as if the utilities were at last going to get better

treatment; but since President Roosevelt's re-election, Washington seems to be getting tough again. The following three lines of action are reported to be on the cards:

1. Adoption of a rule requiring utility companies to obtain sealed bids from underwriters or private investors on the sale of all security issues over \$1,000,000.

2. Adoption of regulations restricting the payment of common stock dividends by utility companies as a means of forcing upward revision of depreciation accruals or the "plowing back" of more earnings.

3. Adoption of a general policy of requiring capital revision, if thought necessary, in connection with all new financing; requiring systematic debt reduction and greater use of common stock for financing.

Defense Helps Small Communities

Thus far the only real defense against night bombers is decentralization. This is why the government is asking that the new industrial plants be built in smaller communities. This same program will continue even after World War II. The day of "bigness" is over as applied to a corporation building one big factory for an essential industry. This, in a way, supports the government's plan of having all public utilities hooked together so that if one powerhouse, or dam, is smashed, the people will be able to get electricity from other sources. This means that decentralization is being supplemented with independence. The old saying, "Every cloud has a silver lining" applies even to World War II. It is stopping the dangerous flow of money, industry and people to a few big cities. Instead, it is distributing these blessings throughout the nation as a whole.

When the Federal Reserve System was started, during the first Wilson administration, the country was divided into 12 districts, with one reserve bank located in a leading city of each of the 12 districts. Although bombing planes were unknown in those days, yet the founders of this new banking system were very foresighted. It now looks as if these 12 districts are destined to become "Little Washingtons." If the founders of the republic had been able to look ahead 100 years, they never would have built the capital in Maryland on the Potomac river. Certainly, some location in the vicinity of St. Louis would have been selected. No reader of this column will live to see the capital move bodily from the eastern seaboard to the central west; but we will see 12 little capitals develop in these 12 Federal Reserve cities. I go further and forecast that the time will come when the president, congress and the supreme court will sit for one year in Washington, one year in Chicago, one year in Atlanta and one year in San Francisco.

BUSINESS ZONE MEASURE ADOPTED

During council meeting held in the city building Thursday, council adopted an ordinance changing from a residential to a secondary business zone a section of both sides of Butler avenue, near the Boyd dairy.

Oliver Pellini presented to council a written promise, which was made a portion of the city records, that he will erect a gasoline station on a lot nearest Boyd's dairy and his own dwelling between the gasoline station and the Graziani residence.

The Jessel girls have done their bit for the President's Infantile Paralysis Fund.

Patricia, 7, and Vera, 10, daughters of Mr. and Mrs. Edwin M. Jessel, 1028 Maryland avenue, shoveled snow from neighborhood sidewalks for dimes, and they netted a good many.

When the snow was cleared away they began a door-to-door "dimes container" collection and obtained \$6 for the cause.

INCOME TAX IN A NUTSHELL

WHO MUST FILE A RETURN

For Federal income tax purposes widows, widowers, divorcees, and married persons separated by mutual consent are classed as single persons. These, with those who have never been wedded, whose gross income was \$800 or more, must file an income tax return. Every married person, living with husband or wife, if no joint return is made, who has a gross income of \$2,000 or more, must also file an income tax return. If the husband and wife each has an income, and their aggregate gross income is \$2,000 or more, they must file an income tax return.

Husband and wife living together at the close of the taxable year may file a single joint return (even though one has no gross income), or make separate returns of the income of each. If separate returns are filed, one may not report income which belongs to the other, but must report only the income which actually belongs to him. If a joint return is filed, the aggregate income disclosed is subject to both the normal tax and the surtax. The liability with respect to the tax on a joint return is joint and several. A joint return may not be made if either husband or wife is a nonresident alien.

If a joint return is not made by an agent of the taxpayers, it must be signed by both husband and wife and sworn to before a proper officer by the spouse preparing the return, or if neither or both prepare the return, then by both spouses.

Where separate returns are filed by husband and wife, the joint personal exemption of \$2,000 may be taken by either or divided between them in any proportion as agreed upon.

Husband and wife may elect each year to file a joint return or separate returns. Where, however, joint or separate returns have been filed for a particular year, neither husband nor wife may, after the due date of return, file an amended return or returns on a different basis for that year.

Third Wife Of Bigamist Found

(International News Service)

DETROIT, Jan. 31.—The life of 25-year-old Frank Misurelli, already complicated by two wives and a charge of passing spurious checks, became more complex today when the assertion was made that still a third wife has been found in Chicago.

Mrs. Pauline Guttery Misurelli, of Chicago, declared that she had found that Misurelli has another wife and child in the Illinois metropolis. This revelation, said Pauline, will mean an annulment as far as she is concerned.

Pauline, along with Mrs. Corine Power Misurelli, of Los Angeles, came to Detroit to cheer up Misurelli who is waiting to be returned to Los Angeles to face the check charge.

Production Pool Planned In State

Move To Expedite National
Defense Announced By
Secretary Brown

LAWRENCE COUNTY
WILL BE INCLUDED

(International News Service)
HARRISBURG, Jan. 31.—Creation of a statewide production pool of machinery, equipment and labor to expedite national defense was announced today by the commerce department.

Regional "pools of men and materials" have been established in 35 industrial areas, with the prospect that others may be formed. Secretary Richard P. Brown disclosed as part of the department's plan to accelerate rearmament.

Manufacturers in need of additional production facilities through subcontracting will be able to learn on short notice which plants have the machines and operators on completion of pooling arrangements.

"The plan contemplates soaring of orders by farming out portions of them for production in idle hours of machinery used only part-time in other companies' plants," Brown explained.

Aid Sub-Contracting
"In brief, it seeks to make sub-contracting practicable by providing manufacturers with up-to-the-minute information regarding when and where suitable equipment is available in other plants. It involves a complete list of all production equipment and workmen in each operating plant in the area; a weekly record of anticipated day-by-day idle hours of each machine in each plant; and prompt exchange of this information among plant managers."

"An object is to create a pool in which manufacturers of an area join to handle defense contracts as a unit. This is accomplished by bringing together managers whose plant capacity is strained and operator of other shops who could supply parts or sub-assemblies through full-time employment of men and machines working only part-time."

"Success of the plan will keep operations and employment at top notch in Pennsylvania plants, not only in production of defense goods but also in manufacture or products upon which the plant's normal operation and employment depend."

Pools have been set up or are being organized in industrial areas centering in Allegheny, Beaver, Berks, Blair, Bucks, Butler, Cambria, Chester, Jefferson, Lackawanna, Lancaster, Lawrence, Lebanon, Lehigh-Northampton, Luzerne, Lycoming, Mercer, Mifflin, Montgomery, Northumberland, Philadelphia, Schuylkill, Venango, Warren, Washington, Westmoreland and York counties. The pools are not necessarily bounded by county lines, but by industrial areas. Lehigh and Northampton counties are planning a single pool.

Y. W. C. A. Notes

INTERCLUB COUNCIL
Vivian Woodworth, chairman, announces that the Girl Reserve Interclub Council will have its monthly meeting Saturday morning at 10:30 o'clock in the club room of the Y. W. C. A.

The council is composed of two representatives from each G. R. club, including the following girls: Shenango, Flora Golis and Pauline Bucka; Elm Street, Dorothy Ward and Florence Wynn; Shirley Weber and Janita Jarvis; Lena Burrows and Alice Wynn; McCall, Vivian Woodworth and Edith Bodendorfer; Mahoningtown, Bernice Ringer and Mary McIlwaine; Washington, Mary Louise Ward and Peggy Wilkison; Franklin, Phyllis Burdette and Aline Turner.

ADVISERS' MEETING

Thursday night, the advisers of local Girl Reserve clubs met to discuss many items that applied to club program and policy. Considerable time was spent in discussing the possibility of changing the name of Girl Reserves. This possibility is being discussed by adult and girl groups in all the counties where Girl Reserve clubs are organized.

It was decided that instead of having a spring setting-up conference for G. R. cabinets, that the responsibilities of newly elected officers and appointed committees would be discussed in the separate cabinets. All the advisers took back to their clubs the world banks that were used at the World Fellowship dinner. These banks will be placed in a prominent place during club meetings and into them girls will drop change from time to time for war relief, which is to be collected at Easter time.

It was agreed that having a dinner meeting for presidents of all clubs for the purpose of discussing the philosophy of being a president would be a good plan. Such a meeting will be open to the presidents of all Y. W. C. A. clubs.

Plans were made for all clubs to make invitations for all mothers of Girl Reserves to attend a tea given by the G. R. committee on February 14. At this tea, there will be an interesting panel discussion with the panels taken by G. R. mothers, who will talk about different phases of the relationship that exists between mother and daughter.

Miss Jane Young, an adviser in the Mahoningtown club, presided over the meeting.

Gra-Y Passers Vie For Trophy Tonight

A trophy will be presented to the Gra-Y basketball team which proves its superiority tonight in a three-club tournament on the "Y" floor. The games will highlight a rally of the clubs of Lincoln-Garfield, Neshaunock and West Side schools. Seventy-five are expected. A dinner will follow the 6 o'clock tournament.

Over 10,000 Apply For Liquor Jobs

(International News Service)
HARRISBURG, Jan. 31.—The Department of Public Instruction today was preparing to notify approximately 10,000 applicants for jobs on the State Liquor Control Board of the time and place of competitive civil service examinations.

Superintendent Francis B. Haas said the department was checking the eligibility of each application prior to mailing notices in about two weeks.

The examinations will be held under the supervision of the Department of Public Instruction in 20 cities throughout the state.

Denies Report Of Destroyer Deal

(International News Service)
WASHINGTON, Jan. 31.—Reports that the American navy would acquire the British battleship King George V in exchange for 20 over age destroyers were branded as "cockeyed" by Secretary of the Navy Knox today.

Other high naval officials, including Harold R. Stark, chief of naval operations, shared the views of some official quarters in Washington think the idea has merit.

President Arthur is said to be the first United States president to employ a valet.

Ten To One Odds Favor Louis To Retain His Title

Betting Is Four To One Red Burman Will Not Last Limit

NO EXCUSE FOR BOUT SPORTS WRITER SAYS

By LAWTON CARVER
International News Service Sports Editor

NEW YORK, Jan. 31.—Joe Louis, 203 pounds of dynamite and possibly the greatest fighter that ever lived, meets another of those strange characters they keep dragging out for him when tonight he goes against Red Burman in defense of the world heavyweight championship. It is almost a travesty on all that is rational to say that Burman is a challenger. His record and the odds of 10 to 1 on Louis seem to eliminate all chance of earnest competition.

Nevertheless, the morbid by-standers will turn out to the extent of about 16,000 to see the show and will pay around \$65,000 for the privilege. Actually they will be paying to see Louis uncork some punches and will be asking meantime who's Burman?

By way of introducing Burman, we may say that he is another of the long list of two-by-fours currently in the heavyweight picture. Neither good nor particularly bad, he finds himself in there now with the greatest fighter of these times and the inevitable seems to be inevitable, or words to that effect.

In case you think miracles can happen at the back and call go ahead and pick Burman to win the championship, the odds are 4 to 1 that he won't even stay the limit.

Duquesne, State Grab Victories

Two of the strongest collegiate cage clubs in the nation—Duquesne and Penn State—annexed victories Thursday night.

Duquesne passed its way to a 53-47 victory over Geneva College. After being held to a 10-9 count at the close of the first period, the Dukes stepped off the accelerator. Penn State bruised aside American U. easily, 32-17, while Youngstown downed Kent State, 46-33.

Franklin And Washington To Battle Today

The Franklin Junior High and Washington High basketball teams will play at the Franklin High court this afternoon at 3:30 o'clock in the quest of City Junior High honors.

Both teams are on edge for the important game. So far this season the East Siders have defeated Mahoning Junior High and so has Washington.

Mr. Jackson Injects New Life In Section By Spilling Leaders

Section 20 Foes Get New Lease On Life As Mounties Top "Greyhounds"

Mt. Jackson high's electrifying victory over hitherto unbeaten New Wilmington has sprinkled "spice" in Section 20.

Pitted against a quintet listed as a potential 1940-41 Class B W. P. L. A. L. champion, the Coach Lockley aggregation handed the tall "Greyhounds" a 33-24 setback Wednesday. The defeat was New Wilmington's first of the season. (The team was minus two of its stars due to injury and illness).

Mt. Jackson's unexpected win injected new life into remaining local members. Boasting of four victories against no defeats, New Wilmington was well on its way to the loop coronet until the Mounties came along. As things stand today, at least four aggregations have an opportunity to emerge with the ermine.

The Mounties' win over the college towners enlightened the hearts of Wampum followers. With only two defeats charged against them, the Cementers are in the middle of the title chase. Mt. Jackson, East Brook and Bessemer each have suffered three reversals and are still serious threats.

Events of the past two days have caused interest to mount around the various county bailiwicks. Consequently, Class B fans anticipate heart-throbbing action when the rivals line up tonight.

Mt. Jackson, which has pulled more than one surprise this season, hopes to move a step closer to the top berth by pancaking East Brook high, on the Brook lair. East Brook is deadlocked with Bessemer for second place honors.

What looms as the top fray pairs Wampum and Bessemer high on Bessemer floor. With only two defeats pinned against the Hennon machine, Wampum stands an excellent chance to skyrocketing to the heels of New Wilmington. Bessemer can move into the second berth by winning.

On Shenango township, Union township and Shenango fire away in what should be a hotly contested set.

New Wilmington takes on non-league competition, facing Mercer at home.

A majority of the regulars with the Cubs drew salary cuts in the contracts offered for the 1941 season.

HERE AND THERE IN SPORTS' LAND

Mark Butler, the railroad man, was in a reminiscent mood several days ago. His mind harkened back several score years to the time when fights were held in a car barn in South Mill street. He mentioned a fight between Martin Lee and George Heckart. Butler recalled that Martin, prior to the fight, appeared to him as the winner because he did not turn out as Mark expected, he explained, and it didn't take Heckart long to turn the trick and turn in a victory.

Anytime an amateur fighter can reach the semi-finals of the Plain-Dealer Golden Gloves tourney he has made something. And he, Sonny Horne were writing of, has something. He lost out in the semi-finals to Bobby Richardson. However, he is going to be one of the "highlights" when February 10 arrives and a fistie production is staged for the benefit of the Help Prevent Infantile Paralysis fund. A good opponent will be picked for him. There will also be a good opponent for Russell Baxter, who hasn't been faced with much opposition here recently. The card is now being lined up. Russell Baxter and Billy Reale are fighting tonight in Greenville.

Years ago there were several racing pigeon clubs in this city. Every week or so the bird-owners would ship their birds to cities hundreds of miles away where they would be liberated. After being liberated the birds would soar into the air, make several circles, sense their direction, then dart straight for New Castle. News today from Julian Kaczmarek reports that a new racing club is to be formed and persons interested in joining should communicate with him between 4 and 5 p. m. at 1015 Cedar street.

Tonight's fight between Red Burman finds the betting 10 to 1 in favor of Joe retaining his heavyweight crown. If recollections serve accurately these were the same odds the night Max Schmeling got away with Louis in their first fight. However, despite Jack Dempsey's interest in Burman and the weaving, hooking style Burman is said to possess, the writer is following the old rule of the ring: "Bet on the champion." They are scheduled to go 15 rounds in New York City.

Victories record in the billiard tourney yesterday at Chicago Thursday were as follows: John Fitzpatrick, Los Angeles, beat Herb Peterson, St. Louis, 50-49, in 50 innings. Tiff Denton, Kansas City, overcame Art Thurnblad, Kenosha, Wis., 50-49, in 66 innings, and Joe Chamaco, Mexico City, won from Joe Morirarty, Chicago, 50 to 16, the innings not being reported.

Leo Freisinger, stocky Olympic veteran, is a slight favorite to retain his North American speed skating championship today Saturday, N. Y.; Ken Bartholomew, Milwaukee flier, is Leo's main threat. With skating here why wouldn't it be a good idea for those owning rinks to get together and arrange some ice events for this section?

They are going to give Tony Galento another whirl in the ring. This time Buddy Baer will swing with Tony at New York. The date has not been picked. The Golden Glove finals of the Cleveland Plain Dealer will be held tonight. Jimmy Blivins and Jimmy Reeves, pro middleweights are former products of the P. D. tournament.

Griffith Breaks Scoring Record

(International News Service)
PHILIPPI, W. Va., Jan. 31.—Addition of the 27 points he scored against Salem college last night today brought the scoring total of Ken Griffith, forward on the Alderson Broaddus college basketball team to 1,603 for his four college years, cracking the previous record of 1,595 held by Hank Luisetti of Stanford.

Griffith, who led his team to a 64 to 44 win over Salem, still has 11 games to go.

New Football Rules Approved

PIAA Endorses Changes In Gridiron Rules For Coming 1941 Season

(International News Service)
HARRISBURG, Jan. 31.—A series of gridiron rule changes effected by the national federation football rules committee for the 1941 season today held the approval of the Pennsylvania Interscholastic Athletic Association.

The federation's rules have been adopted by 30 states in the nation. The revised rules:

(1) When a foul is committed behind the goal line the distance penalty will be enforced from the goal line instead of from where the foul was committed.

(2) Interference on a forward pass or an uncompleted pass on fourth down behind the goal line will be ruled as any other down and not as a touchback and will be returned to play at the point of origin.

(3) A free kick following a fair catch must be put into play from the line which cuts the free kick line.

(4) Elimination of the interference rule pertaining to forward passes which end behind the line of scrimmage.

(5) Extension of the 1940 rule which specified that a ball was "dead" in connection with an illegal shift to include a backfield man illegally in motion at the snap.

(6) Adoption of a flat rule preventing a player, who of his own volition runs out of bounds, from returning to the scrimmage zone as a participant of that particular down.

(7) Removal of the number of times a player may return to the game in any one quarter. Re-entries, however, must be made in accordance with established rules.

(8) Receivers of a ball that goes out of bounds shall have the option of putting the ball in play where the ball left the field or on their own 40 yard line instead of the 35.

(9) Allowance of a touchdown that was deflected by a foul on the part of a defensive player on a scoring play. The offending team will be penalized on the succeeding kick-off.

(10) It will be illegal for a center to place his hands on the forward point of the ball and slide his hands toward the rear in an attempt to draw the defending team off side.

GALENTO TO BATTLE YOUNG BUDDY BAER

(International News Service)
NEW YORK, Jan. 31.—Tony Galento still hasn't had enough of the B.

Plattened into obscurity by Max Baer last summer, the barrel-proportioned Galento was scheduled today to take on Max's younger but huskier brother, Buddy, at Madison Square Garden March 26. It will be for 10 rounds.

Sports trail melody—Pat Kennedy, who is the Arthur Donovan of basketball, tossed aside his whistle and authored a piece appearing this week in one of those picture magazines. The colorful arbiter, who has watched every outstanding collegiate eager of the past decade, completes his instructive yarn by naming an all-time All-American quintet. That's where Lawrence county comes in.

Kennedy has named Wesley Bennett as center on the mythical aggregation. Flaunting Westminster College's colors, lanky Bennett performed in Madison Square Garden one night in 1933 and led the local team to a 25-15 victory over the vaunted St. Johns College passers. Bennett's performance has never been forgotten by Kennedy nor by the addicts who file into the historic indoor sports arena.

Kennedy's forwards include "Hank" Luisetti, of Stanford fame, and Moir, of Notre Dame; Bennett, at center; and Kinsbrunner, of St. John's College, at guard. Being selected with such stalwarts is a tribute that Wes will cherish infinitely. The former Titan wizard is still active. Bennett's name pops up in the lineups of several top Ohio independent aggregations, now and then.

New Wilmington High is getting one bad break after another. Recently, ace, was relegated to benchwarming duty when he sustained a bone fracture of the left wrist. Then came a siege of flu which affected the squad and brought about several postponements. "Kenny" Cathcart, another mainstay, has been sidelined by an attack of measles. Coach Johnny Eagleson has that "woe is me" feeling.

If you crave natural comedy spread on thick, you're invited to hie to McCoy's bowling ballwalk where the News Regulars (???) are billed to clash with the News Ir-

Old Furnace Five Trims Second U. P.

The Old Furnace Five defeated the Second U. P. Wednesday at the Arena floor 40 to 28. The half ended 19 to 15 in favor of the church league team. The Old Furnace rallied the second half, led by Curley Scott and Wilson, and took the lead. McGary and Jamison paced the Second U. P. team.

Sunday the Old Furnace will play the Himrod club of Youngstown at the Arena, it was announced today by Coach John Rubels.

"The Angel" Will High-Light Wrestling Extravaganza In The Arena

Advance sale reports indicate that a capacity gallery may witness New Castle's first professional wrestling show in several years. Wednesday evening, at 8:30 o'clock in the Arena.

The appearance of the internationally known French freak, "The Angel", who will meet Lord Albert Mills, British champion, in a 10 round headliner, has caused interest to boom here.

"Gus" Sonnenberg, ex-world's champion, and Abe "King Kong" Kasney, the crafty Syrian, will occupy the semi-final spot booked for eight rounds. "Iron" Talun, a 6 foot 9 inch Polish woodsman, matches wits with Pete Baltran, a talented grappler, in a six round setto.

All bouts will be staged under the new Australian Round System. Six minutes constitute a round.

Urges Flag Day
Be Legal Holiday

Founder Of American Flag
Day Association Asks Congress To Enact Law

William T. Kerr, of Lansdowne, Pa., founder and national president of the American Flag Day Association, which fosters observance of Flag Day celebrations in the country, is urging the present congress to pass a bill, which will make Flag Day, June 14, a legal holiday, "to all intents and purposes and in the same manner as the 11th day of November, Armistice Day."

The bill was presented to congress by Hon. Samuel A. Weiss, of the 31st Pennsylvania district, and is now in the hands of the judiciary committee. Mr. Weiss sponsored and carried through the Pennsylvania legislature, the Flag Day holiday bill, when he was a legislator in 1937.

THE GUMPS—DECLARING HIMSELF IN

It looks like maybe some of this snow will melt soon and pass on along to the Gulf of Mexico. . . . Some folks are wishing they were down near the Gulf right now. . . . It sure is a beautiful place to be. . . . The sun shines brightly and the water is a beautiful green color. . . . The fish that are pulled out are sure great. . . . But not every one can go south. . . . So what do we do here where the snow is fun for the kids? . . . We think up good things to eat and sit before the wood fires that flicker in the thousands of fireplaces throughout the north here and have a good time. . . . Pennsylvania is not too bad when you get right down to the facts.

We don't usually attempt to write much about sports. . . . but one sport that is of great interest to many New Castle folks is wrestling. . . . Some picked up their taste while away at school; others developed it from the fact that they liked to see the sport. . . . But however you look at it, "The Angel" is something to see. . . . He puts on a good show. . . . and his looks will frighten 9 out of 10. . . . He will be here in New Castle next Wednesday night. . . . The Arena will be the place. . . . So if you are interested. . . . make this date your previous date.

BE SURE TO READ THE CLASSIFIED AD PAGE. . . IT WILL HELP SOLVE YOUR ECONOMICS.

LEGAL NOTICES

An Ordinance

Amending Ordinance No. 3873 adopted December 14, 1920, and known as the Zoning Ordinance, and the Zoning Map of the City of New Castle, so as to change the district located in the Fourth Ward of the said City, described as follows, to-wit:

"Beginning at the intersection of Stanton Avenue with the First Alley southwest of Butler Avenue, thence in a northeasterly direction along Stanton Avenue and the dividing line between E. B. Cox and Lehigh Portland Cement Company to the first Alley northeast of Butler Avenue, thence by the said first Alley in a southeasterly direction approximately Five Hundred Twenty (520) feet to an unnamed street, thence in a southeasterly direction about Forty (40) feet to the westerly direction of said street to land of Albert S. Rowan, thence by the said land of Rowan in a northeasterly direction about Two Hundred Fifty (250) feet to the place of beginning, and to establish the whole of the said described district as a secondary business district."

WHEREAS, the Council of the City of New Castle has viewed the land lying on both sides of the said street in the Fourth Ward, and has determined that because of changes in the character of the business in a certain portion of the said land hereinafter described should be changed and established as a secondary business district.

SECTION 1. Now Therefore Be It Ordained and Enacted by the Council of the said City of New Castle, that all of the hereinafter described district in the Fourth Ward of the said City, namely:

Beginning at the intersection of Stanton Avenue with the First Alley southwest of Butler Avenue, thence in a northeasterly direction along Stanton Avenue and the dividing line between E. B. Cox and Lehigh Portland Cement Company to the first Alley northeast of Butler Avenue, thence by the said first Alley in a southeasterly direction approximately Five Hundred Twenty (520) feet to an unnamed street, thence in a southeasterly direction about Forty (40) feet to the westerly direction of said street to land of Albert S. Rowan, thence by the said land of Rowan in a northeasterly direction about Two Hundred Fifty (250) feet to the place of beginning, and to establish the whole of the said described district as a secondary business district, and the same is hereby established as a secondary business district, and the Zoning Ordinance of 1920, which was adopted December 14, 1920, and the Zoning Map of the said City, which is a part of the said Ordinance, are hereby amended so as to fix all of the said described district as a secondary business district.

SECTION 2. The City Engineer is hereby authorized and directed to make the appropriate changes on the Zoning Map provided for by this Ordinance and to designate the district herein above described district as a secondary business district on the said Map.

I, C. Ed. Brown, City Clerk, hereby certify that the above and foregoing Ordinance was adopted by the Council the 30th day of January, 1941, signed by the Mayor and attested by the City Clerk, and subject to all the penalties imposed by the original Ordinance known as Ordinance No. 3873.

In witness whereof, I hereunto set my hand and affix the seal of the City this 31st day of January, 1941.

Bids—Tractor

Notice is hereby given that the undersigned has approved a proposal of the County Commissioners, acting as Executive Officers of the Lawrence County Institution District, to have sealed bids for the furnishing of one tractor, with a horsepower in the draw bar of not less than 8 nor more than 12 horsepower with the following attachments: one Cultivator, one 14-inch bottom, one plow, one 6-ft. mower, one Corn Drill. As part of the consideration for said tractor and all other equipment, the bidder shall be required to furnish the allowance that he is making for said equipment, that he will be required to take.

Each bidder shall specify the manufacturer's name, the horsepower in the draw bar of the tractor, and the price at which he would have bid the same had he not been required to take as part of the consideration the equipment and materials above mentioned.

The bids shall be submitted in a sealed envelope, plainly marked "Bids—Tractor" and will be received by the undersigned at his office on or before January 31, 1941, at which time bids will be opened publicly in the office of the County Commissioners, acting as Executive Officers of the Lawrence County Institution District, to receive the successful bidder, who will be required to execute the proper contract and give the required bond.

The County Commissioners, acting as Executive Officers of the Lawrence County Institution District, reserve the right to reject any and all bids.

Signed: FRANK W. HILL, City Clerk.

Gains Are Made By Stock Leaders During Early Trading Of Day

By LESLIE GOULD
(International News Service Financial Writer)

NEW YORK, Jan. 31.—The stock market displayed a firmer tone today after two days of the most severe declines since last November. Best prices were set in the first hour, with steel shares in the lead, spurred on by the now-breaking profits reported yesterday by Bethlehem Steel, Bethlehem jumped 1 1/2 points and U. S. Steel 3/4. Smaller advances were scored by Crucible and National.

The gains were shaded by noon, however, as the opening rally failed to attract vigorous support.

Chrysler advanced more than half a point in early trading, and General Motors slightly less. These were also shaded in the second hour.

Firmness in metal shares were reflected by gains of 1/2 point in American Smelting, 3/4 in Anaconda, 1/2 in Nickel and 1/2 in Kennecott.

Rails were fractionally higher, as were steel shares, with rail liens fractionally better.

In commodities, cotton was up 10 to 35 cents a bale and grains were slightly higher. Minor staples were steady.

Surprise Honors

James L. Kennedy

Brothers And Sisters Celebrate

Birthday Anniversary At

Castlewood Home

ELLWOOD CITY, Jan. 31.—James L. Kennedy, of Castlewood, was delightfully surprised last evening when his brothers and sisters, with their families, assembled at his home to honor the occasion of his 62nd birthday anniversary.

The evening was spent informally about the glowing fireplace with many happy memories of childhood days spent there with their parents, the late Samuel and Sarah Catterson Kennedy, being recalled.

The honor guest was presented with many attractive gifts, as remembrances of the enjoyable occasion. Tempting refreshments were served as the final feature.

Members of the family attending were Mrs. Mary Thompson, New Castle; Mr. and Mrs. John Kennedy and son John, Mr. and Mrs. Alfred Kennedy, Mrs. Rebecca Houk and grandson, Lester Sontag, of Castlewood; Mr. and Mrs. Homer Christie and Mrs. Wilbert Jessop and daughter, Eleanor, of Ellwood; and the honor guests' wife and daughter, Jessie. One brother, Thomas, of Cleveland, was unable to attend.

Christian Service

Society Assembles

ELLWOOD CITY, Jan. 31.—The members of the Women's Society of Christian Service of the First Methodist church assembled on Thursday for an all-day meeting on Thursday for an all-day meeting to Red Cross sewing.

At noon, the group was served a tempting luncheon by Mrs. R. A. Snedden, Mrs. Charles Rabberman and Mrs. Elmer Greenham.

In the absence of the president, the meeting was conducted by Mrs. John Graham, with plans being made to aid with the decoration of the church parlor.

Mrs. C. K. Morrow directed the afternoon's program on "Health," Miss Edith Shump, school nurse, explained the health routine that is followed in the local schools. The health of the negro people as a race was discussed by Mrs. Harold Snyder and Miss Louise Barton gave a summary of health conditions in Ellwood City.

Another meeting will be held on Thursday, February 27.

Will Increase Aid To Britain

President Roosevelt Has Assured Lord Halifax Of U. S. Determination

STATE DEPARTMENT
GIVES STATEMENTS

(International News Service)

WASHINGTON, Jan. 31.—President Roosevelt has assured Lord Halifax, new British envoy, of America's "firm determination to continue on an ever-increasing scale" its assistance to Great Britain, the state department disclosed today.

The state department made public the exchange of statements made by both President Roosevelt and Lord Halifax in connection with the latter's presentation of his credentials.

In his statement to the president, Lord Halifax said that America's assistance to Great Britain, which already has been invaluable, will "assuredly secure the triumph of the cause on which you, no less than we, are resolved."

Lord Halifax, referred to "these heroic and tragic days, when it is the privilege of my country to be the champion against brutal wrongdoing of all that American and British nations hold dear," and said the British government was "gratified" to know that the efforts of his predecessor, the late Lord Lothian, to "draw still more close the ties which unite our two countries" were not "unfruitful."

President's Reply

In reply to Halifax' statement, President Roosevelt said:

"I take this occasion to reaffirm the warm friendly feeling of myself and the American people for the government and people of Great Britain and of the whole British commonwealth of nations.

"The tragic and untimely death of your distinguished predecessor, Lord Lothian, came as a profound shock to all of us who had been privileged to know him. He had deeply impressed us all with his sincere friendship for the United States and with his unflinching efforts toward closer understanding between English speaking peoples.

"Great Britain and the United States have long been linked by intimate bonds of blood and friendship. I feel confident, Mr. Ambassador, that your presence in the United States will increasingly strengthen these strong ties between our two countries.

Full Cooperation

"Let me assure you that in all your work here you may always count upon my full cooperation and the cooperation of the various agencies of this government. I want to assure you further of our firm determination to continue on an ever-increasing scale our assistance to Great Britain and to make available munitions and supplies now flowing from the rapidly expanding industrial facilities of the United States."

Presentation of Lord Halifax' credentials and the exchange of statements was understood to have been marked by a departure from the usual diplomatic procedure.

President Roosevelt, waived the usual protocol when he greeted Lord Halifax aboard the presidential yacht Potomac on the day of the British envoy's arrival here. Lord Halifax actually presented his credentials on that day instead of awaiting a formal visit to the White House. His statement was later transmitted through the state department and the president's reply went through the same channel.
